Ah,

It wouldn't be weird if the authors that Mr. K is in charge of got caught by the "It's me, it's me" scam one day.

その11　胃捻転

本編で登場する犬の胃捻転は、突如発症して、短時間のうちに死亡してしまう、とても恐ろしい病気です。鉄生はレントゲンや血液検査を省いて緊急手術をしていますが、この病気の場合は、それぐらい急いで手術することが大切なのです。

では、飼い犬がこの病気にならないためには、どうしたらいいのでしょうか？胃捻転は急激で多量の食事の後、急な運動をすると起こると言われています。ボクサー、シェパード、セント・バーナード、ドーベルマンなどの大型犬は、特に胃捻転になりやすい犬種なので、飼っている方は、食事は散歩の後に与えるようにしましょうね。

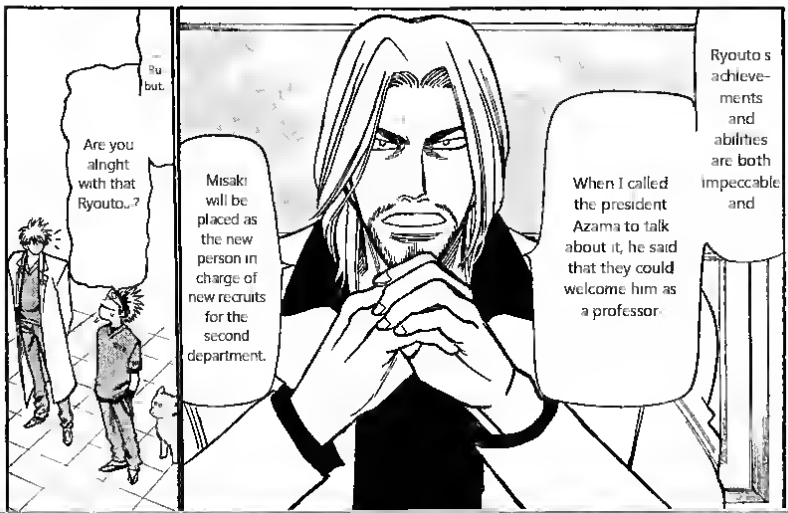
Chapter 87:

A new development?

By the way, I'll be counting on you to help me out with the moving kay ♡
I am the one being transferred to Meiou University.
.....
..whaU

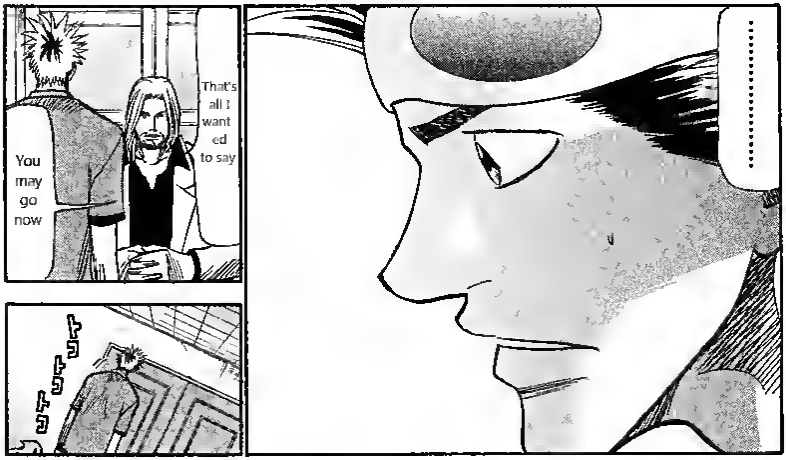
What did you sayy~~!?

2

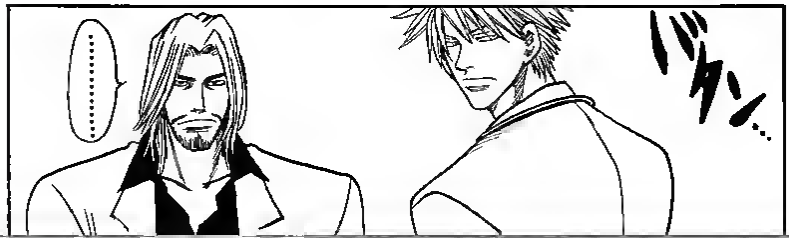


...Ru but.
Are you alright with that Ryouto..?
Misaki will be placed as the new person in charge of new recruits for the second department.
When I called the president Azama to talk about it, he said that they could welcome him as a professor.
Ryouto s achieve-ments and abilities are both impeccable and

Well yeah... Even if we're calling it a transfer, it's only temporary, so I'll likely return to R.E.D. in 1-2 years and
There are some rewarding things to do that are only possible at Meiou University
The transfer will happen in 2 weeks. I'll give you time off on that day so
Could you help him move?



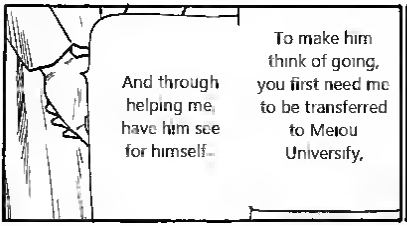
That's all I wanted to say
You may go now



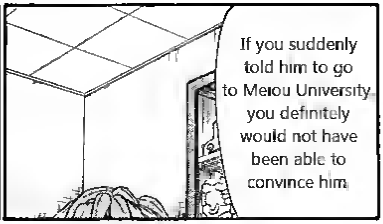
バタン...

This is the only way to get Tesshou to go to Meiou University
It can't be helped
.....I wonder if it really is alright like this...

.....



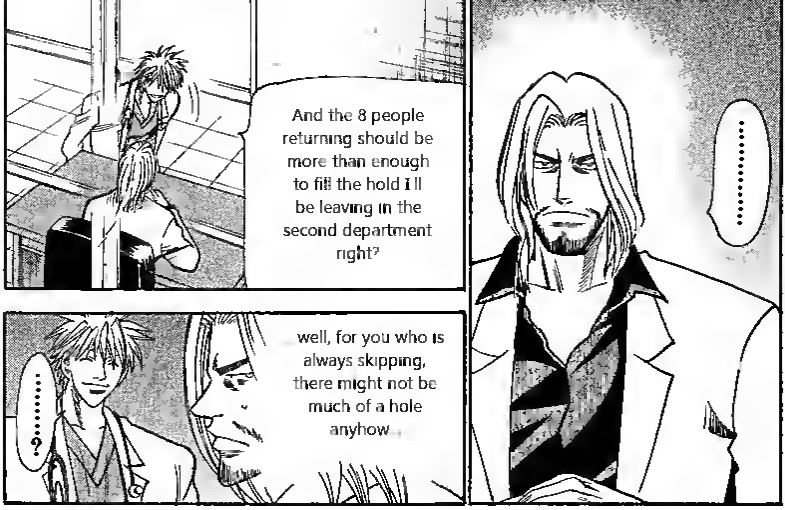
And through helping me, have him see for himself...
To make him think of going, you first need me to be transferred to Meiou University,



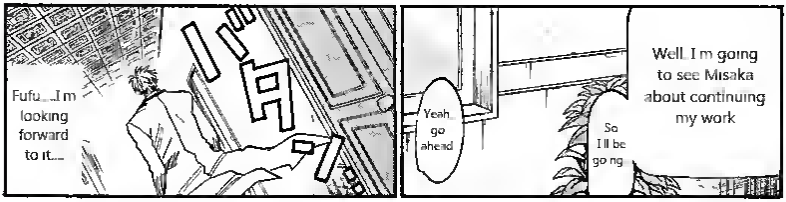
If you suddenly told him to go to Meiou University you definitely would not have been able to convince him

4

Just what kind of situation the patients in Meiou University are in.



And the 8 people returning should be more than enough to fill the hold I'll be leaving in the second department right?
.....
well, for you who is always skipping, there might not be much of a hole anyhow...
.....?



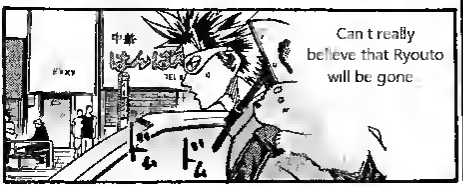
Fufu...I'm looking forward to it....
Yeah, go ahead
So I'll be going
Well, I'm going to see Misaka about continuing my work

With this, I'll be able to see it with my own eyes...

2 weeks later...
Exactly what Tesshou's passion evokes in Meiou University

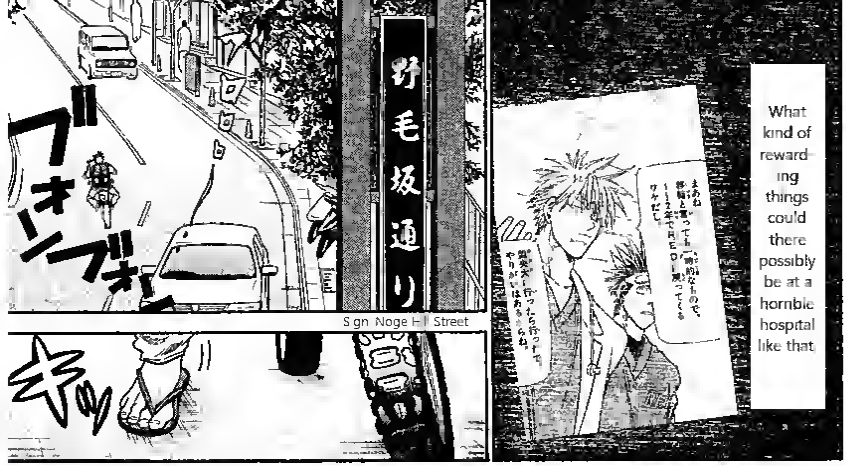
I kinda

I've already sent all my luggage to Meiou by a home delivery service
So all I need is for Tesshou to come and help to arrange it.



Can't really believe that Ryouto will be gone

It's the sort of place that didn't even accept that emergency case with the Japanese monkey
And if we're talking about THAT Meiou University, which doesn't even do night examinations,



What kind of rewarding things could there possibly be at a horrible hospital like that

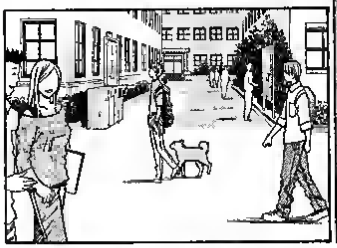
Ahh so it's at the back of the university
Err...so the undergraduate veterinary hospital is...



So this is Meiou University

Even so, it really is a huge university. So prestigious universities are like this.....
The fifth rate university I went to Can't even compare

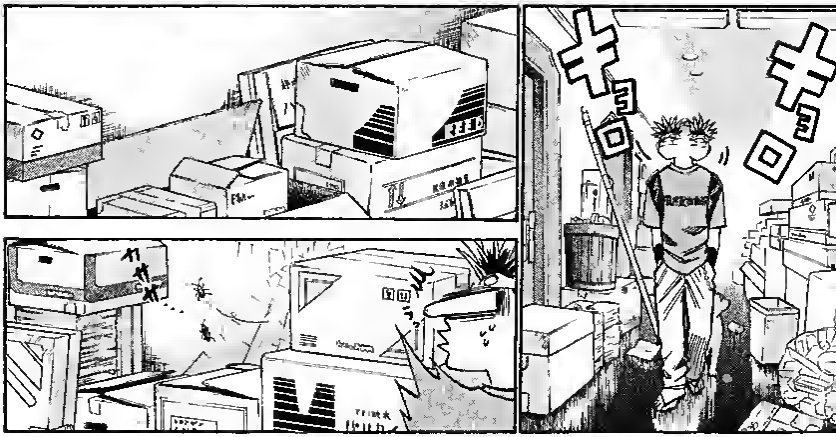
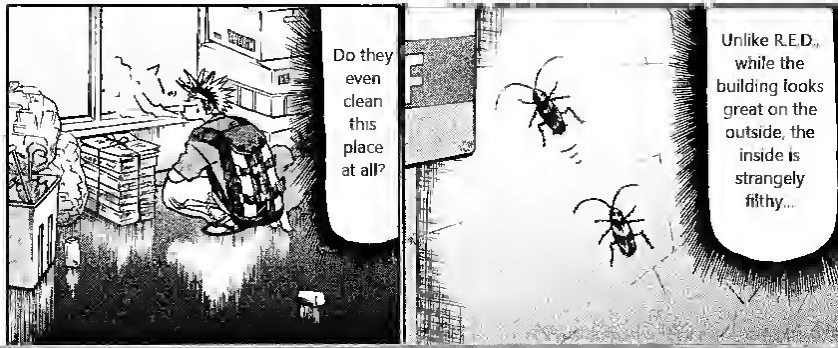
It's on the 6th floor. Please use the elevator over there.
Yes, you must be Mr. Iwashiro.
Ryou where is Dr. Ryouto's room?
Ummm... I've come from R.E.D....

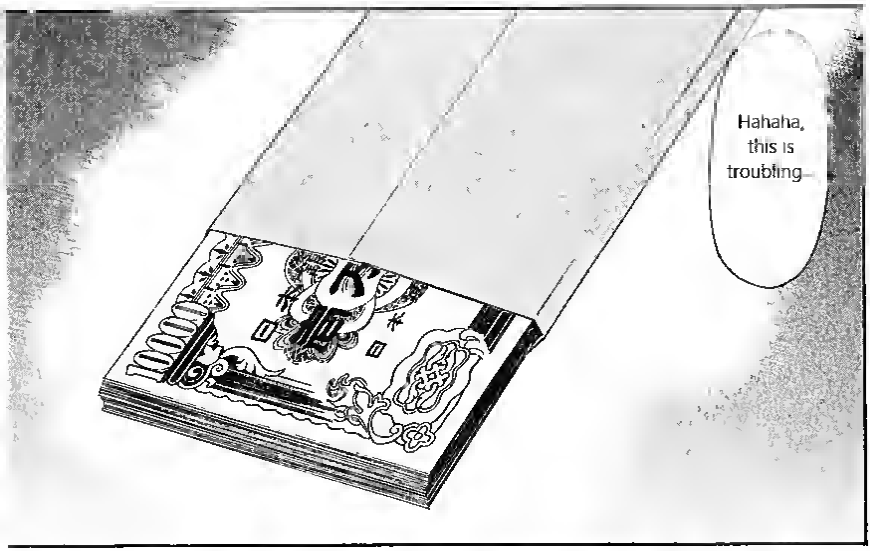


キョロ
キョロ

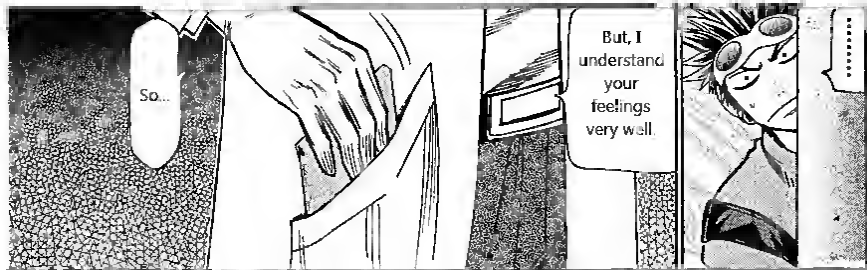


Do they even clean this place at all?
Unlike R.E.D., while the building looks great on the outside, the inside is strangely filthy...

Hm...
Doctor please please help Pero...
I'm sorry that I could only prepare this much but...



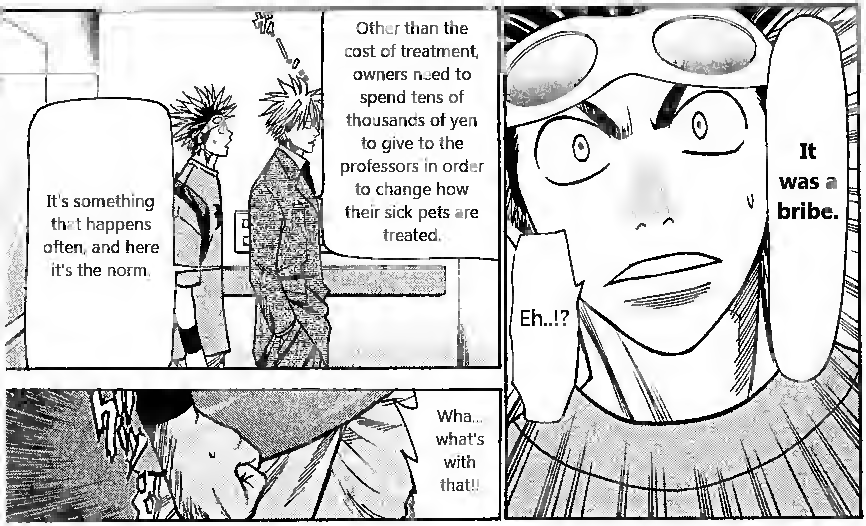
Hahaha, this is troubling...



So...
But, I understand your feelings very well.
.....

Hm? Now that I think about it, what illness did this woman's dog have?
We'll have one of the highest authority figures within the Society of Veterinary Science, I, Rei Heinami, the dean of Meiou's veterinary department, will be performing the surgery
I'll be leaving it in your hands
Well, whatever
Dr Heinami
Heinami?
Eh..?
Why do I have to...
I'm about to go over to the president's place to give my greetings, so would you come as well?
!!
Hey, Tesshou!
12
I see.
Since I'll be having you help out all day today, I need to properly introduce you
The president also acts concurrently as the hospital director so

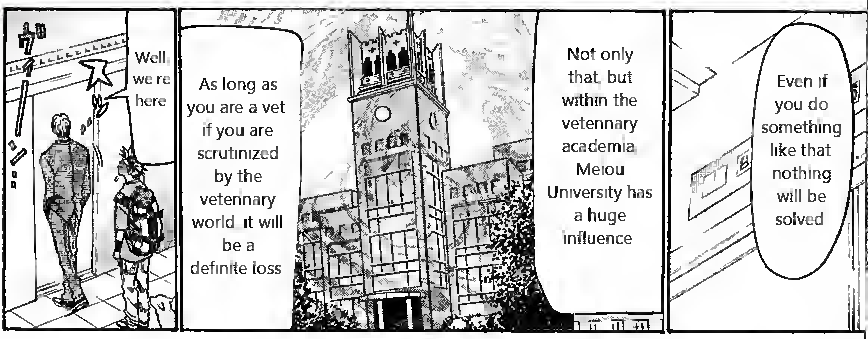
What do you think that was?
Just now there was an old man that kinda looked like a vet, and he received some envelope from an owner
By the way Ryouto
.....



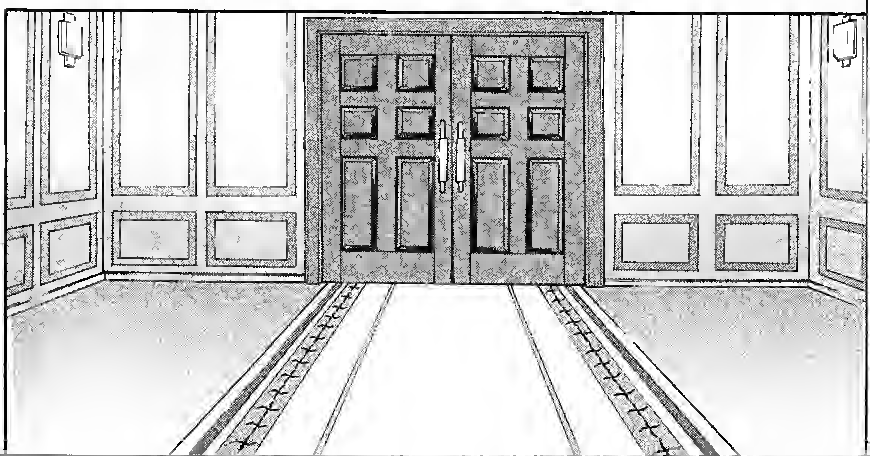
It's something that happens often, and here it's the norm.
Other than the cost of treatment, owners need to spend tens of thousands of yen to give to the professors in order to change how their sick pets are treated.
Wha... what's with that!!
Eh..!?
It was a bribe.

How could you change the way you treat life with something like a bribe!!
Do...don't screw with me!!

If you're about to go say that you're going to go hit him, you can't.
Un.... unforg-ivable...



Well, we're here
As long as you are a vet if you are scrutinized by the vetennary world it will be a definite loss
Not only that, but within the vetennary academia Meiou University has a huge influence
Even if you do something like that nothing will be solved



Nice to meet you, I'll be under your care from today on, I'm Tsukasa Ryouto.
Excuse us.

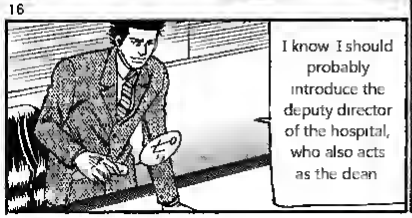
I look forward to working with you.
I'm **Ryuuichi Azama** president of Meiou University as well as the hospital director here
...But you know, for you, who is known to have one of the best abilities in R.E.D. to come here, I'm happily surprised.
From here on, as a professor, please feel free to use your power as you see fit.
Nice to meet you too.

Today he'll be helping me to move in.
I'll introduce him. He is RED's second department's Iwashiro
And.. you are..?
I see. so it was him
……

According to Takamiya's story, as long as he himself is willing to come here, then he'll also be transferring to Meiou University...

The young veterinarian in RED with the most passion...

16



I know I should probably introduce the deputy director of the hospital, who also acts as the dean

Sorry, but please come to the director's office for a bit.
Yes, understood.
More importantly Mr director..
I have something I need to ask you..!!
Tsu...
T..sshou!
!!

By the time he was brought to RED.. it was already too late...
Just recently, I had a Japanese monkey patient with an intervertebral disc hernia but..

It seems....! That Meiou University doesn't do night examinations, so he was turned away at the door!
The vets here should know that if an intervertebral disc hernia is not treated immediately, then it will become untreatable!
So why the hell did they turn him away!!
And it's not just that!!

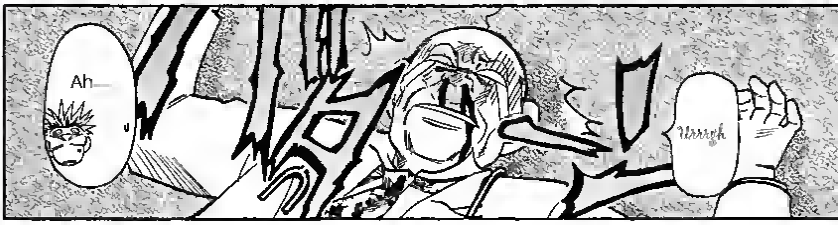
Just now, I saw some guy called Heinami taking money from an owner!
!!
HEAD HUNTER

As long as they need a helping hand, all patients and owners are the same!!
I can't forgive forcibly charging any fees other than the treatment fees, making the owners have to bring out more money, but.
What's even more unforgivable is the discrimination between the lives of patients!!
Please excuse me.
.....

In any case, I..!!
Um... direc...
.....
.....
.....?

If I find that guy called Heinami, I won't let him off lightly!
I'll definitely send him flying!!
Hugy-

eh!?



Ah...
Urrrgh

Ahhh he's already sent him flying...
He's our deputy director, and the dean...
...He is that Henami

I hope you enjoyed the chapter!!

Plus he's famous for holding grudges

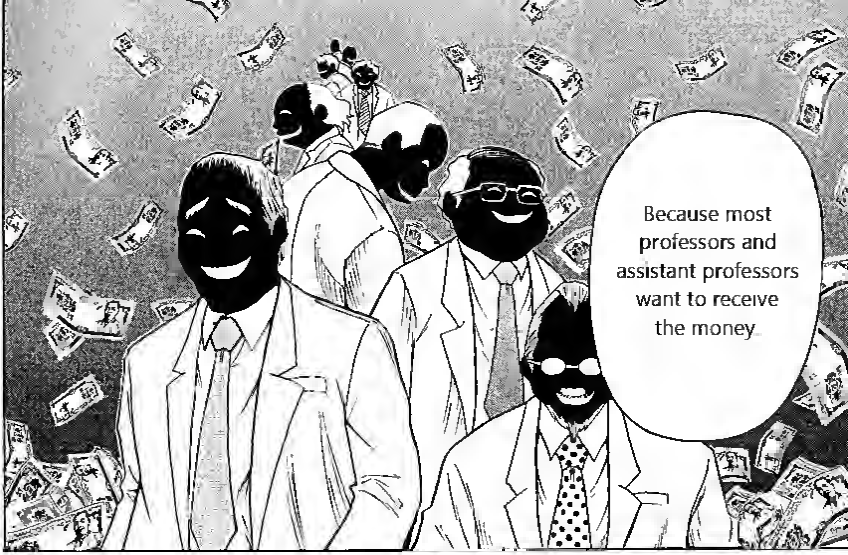
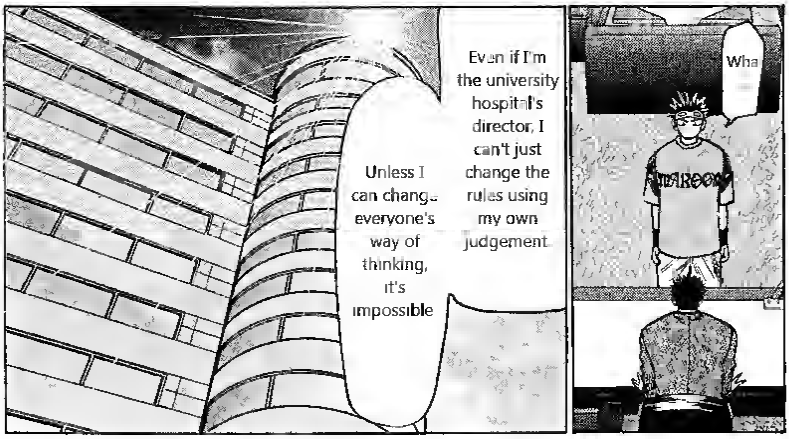
Don't worry about it

Iwashiro
.....
I'll make sure to tell him that properly
It's obvious that it wasn't on purpose

It's frustrating but it's impossible
I understand exactly why you are angry. If I could, I would forbid the acceptance of any kind of bribes.
But...
Wh why



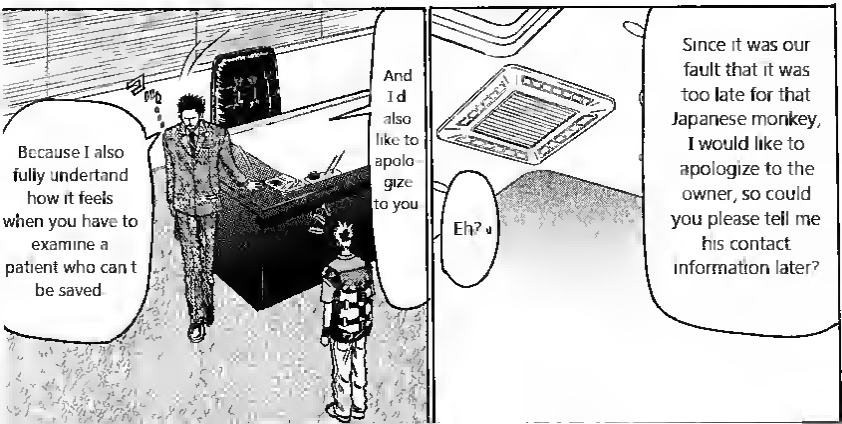


Unless I can change everyone's way of thinking, it's impossible
Even if I'm the university hospital's director, I can't just change the rules using my own judgement
Wha

4

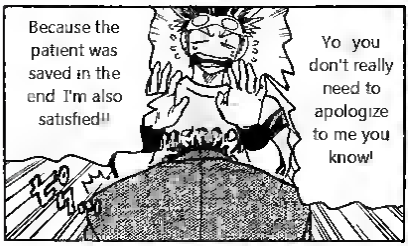
[Supplementary explanation] In both animal and human hospitals, there are not many private hospitals which punish the taking of honorariums. In national and public hospitals, doctors are considered public officials, so taking extra money would be considered a bribery offense but in reality, when the parents of the editor for this manga died, the doctors at a certain country's national hospital did accept an honorarium.

In other words, everything is because I'm too powerless...
It's the same for the reason why Meiou University doesn't do night examinations
Since nobody wants to do it, we can't do it
.....

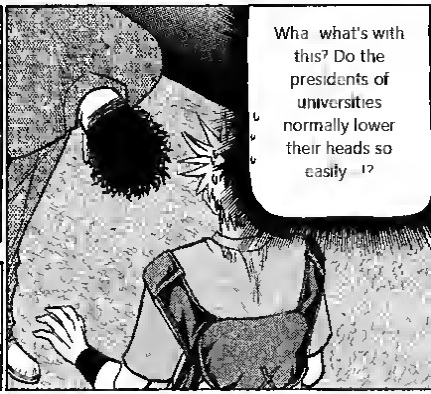


Because I also fully undertand how it feels when you have to examine a patient who can't be saved
And I'd also like to apologize to you
Eh?
Since it was our fault that it was too late for that Japanese monkey, I would like to apologize to the owner, so could you please tell me his contact information later?

……
!!

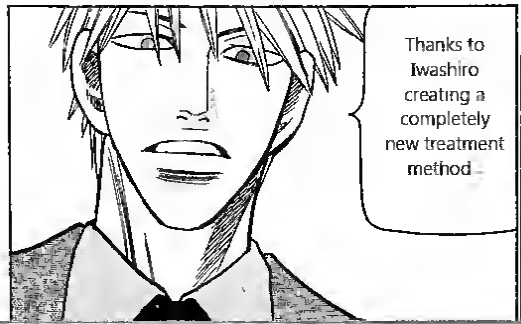


Because the patient was saved in the end I'm also satisfied!!
Yo you don't really need to apologize to me you know!



Wha what's with this? Do the presidents of universities normally lower their heads so easily!?

From a belatedly diagnosed intervertebral disc hernia?
Saved?

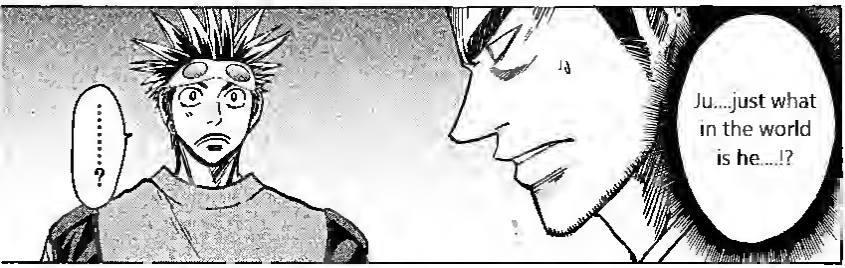


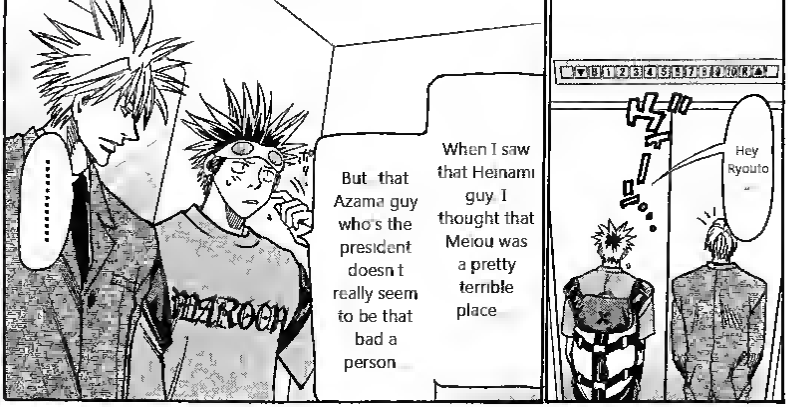
Thanks to Iwashiro creating a completely new treatment method

Yeah, he really was saved

Impossible... He's still around the age of the residents* at our university...!
At that young age, he's already had such an incredibly revolutionary finding...!?
.....!!

*Note: For veterinarians, the residency period differs according to different hospitals





.....
But that Azama guy who's the president doesn't really seem to be that bad a person
When I saw that Heinami guy I thought that Meiou was a pretty terrible place
Hey Ryouto

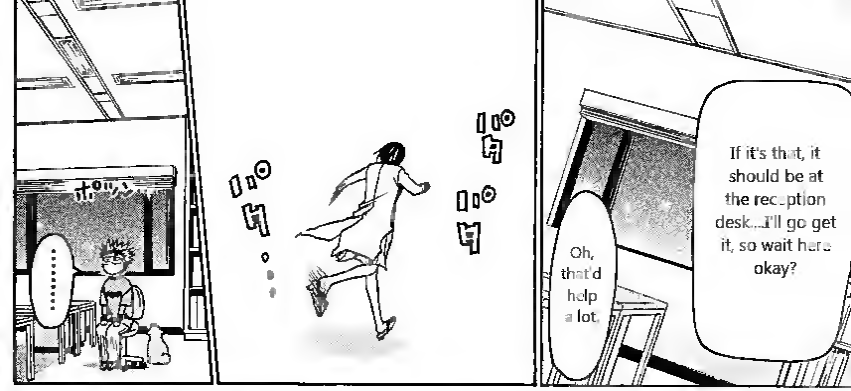
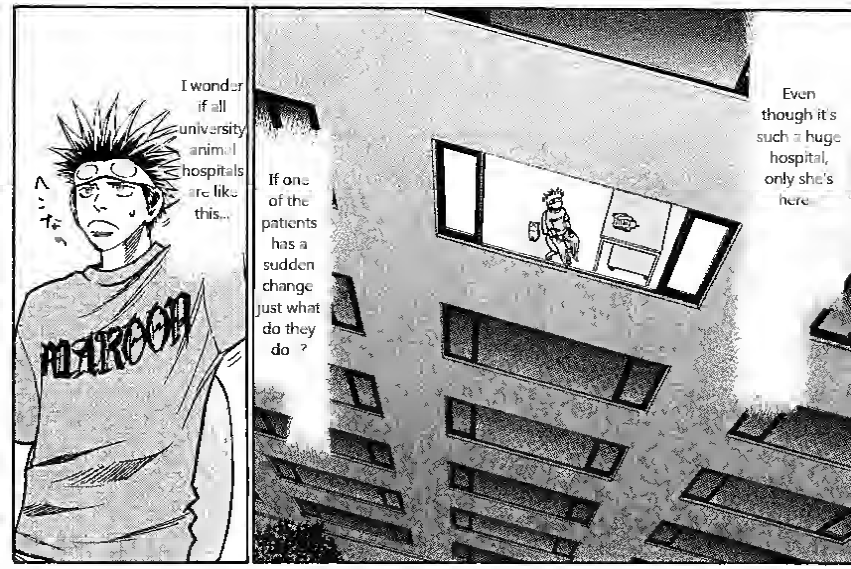
I came to help Ryouto move!
I'm Tesshou Iwashiro a veterinanan from R.E.D.
You know...
Ryouto
You mean that doctor who came from R.E.D. and became a professor?
Yeah, him!

Yeah
You're a vet from here?
So that's it...don't surprise me like that. At this time, only I'm around...and the security guard only comes by occasionally, so I thought it was a burglar...

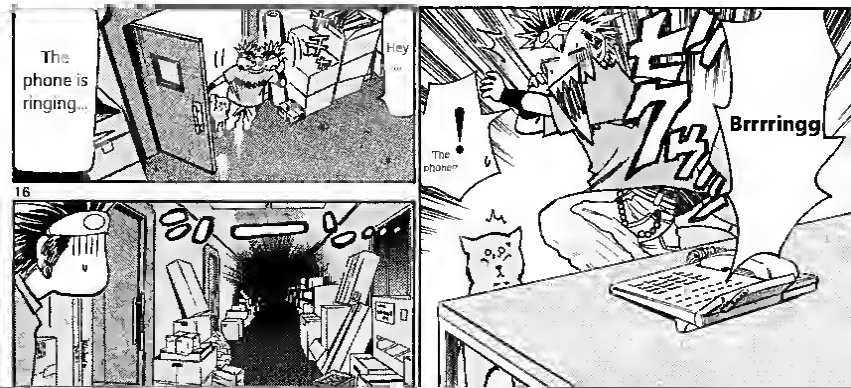
I see...
By the way, I was asked by Ryouto to lock the door to his research room but, do you know where the key is?
Even though I said I'm a vet, I'm still just a resident.
I'm **Waka Mizuki** from the surgery department.



Oh, that'd help a lot.
If it's that, it should be at the reception desk...I'll go get it, so wait here okay?

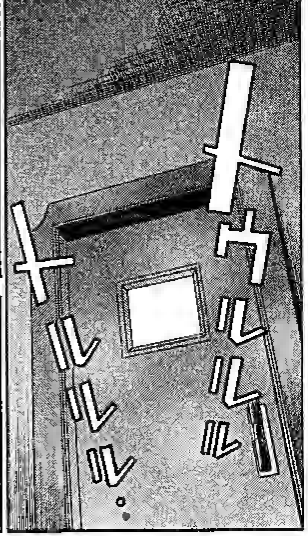


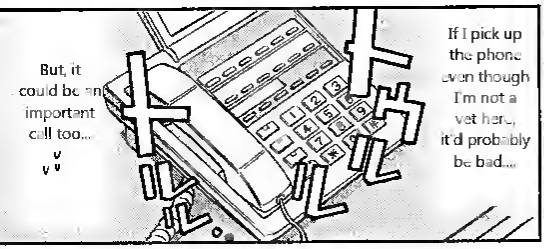
I wonder if all university animal hospitals are like this...
If one of the patients has a sudden change just what do they do ?
Even though it's such a huge hospital, only she's here...



The phone is ringing...
Hey ...
Brrrringg
The phone!

What... should I do...





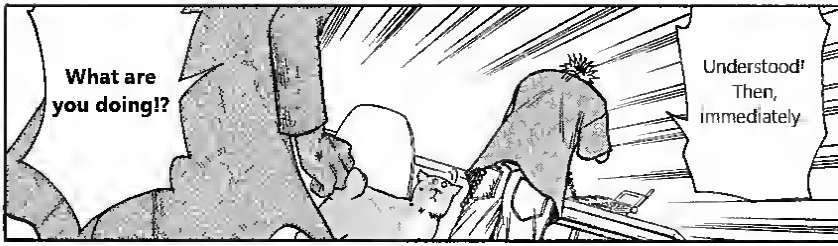
But, it could be an important call too...
If I pick up the phone even though I'm not a vet here, it'd probably be bad....

Yes, this is Meiou University!

An emergency patient...!?
Wh...what is the matter!?

!!
P....please!! Could you... take a look at our dog Louise!?

Could it be... stomach torsion...!?
Stomach torsion: a sickness in which the stomach becomes twisted, and usually happens in larger dogs. It appears very suddenly, and surgery must be done as soon as possible or the patient will die.
Her stomach appears to be very swollen, and she seems to be having trouble breathing!!



What are you doing!?
Understood! Then, immediately

Doctor doctor
Our hospital has a rule that you can't accept night examinations!!
It couldn't be... an emergency case? You can't, refuse it!
.....
.....

From our home, the closest hospital is yours....!!
At home!
R... right now, where are you?
Understood, immediately bring her here!!
I can't have it taken to R.E.D.!
If it's stomach torsion, then if the surgery isn't done one minute, or even one second earlier, the patient can't be saved...
What have you done..
Wha

Even though there aren't any veterinarians here, why did you just selfishly decide to accept it!!
It's been decided that our hospital doesn't take emergency cases at night you know!?

...Hah?
Then, you go home! I'll do it by myself!
Wha...what are you saying? You aren't one of our vet.....
The patient's life depends on this!

The one who will save her is me!!

I hope you enjoyed the chapter!!

Meiou University's Night
.....!!

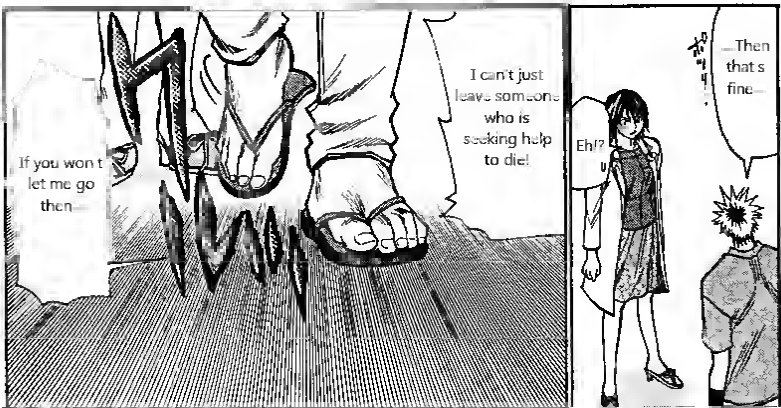
That has nothing to do with it...
Tha...
The patient might have a stomach torsion
If the surgery isn't done quickly, she might not be able to be saved...!!
The rules are the rule!! We're not allowed to accept night examinations!!
And even if you tell me, the night watch to go home, I can't you know!?

2

If that happens, then Meiou University may go to R.E.D. to protest and you...
There's no way it's okay for you, who isn't even a vet here, to selfishly choose to treat a patient here!!
Don't say things that don't make any sense!
That's why I said I'd do...

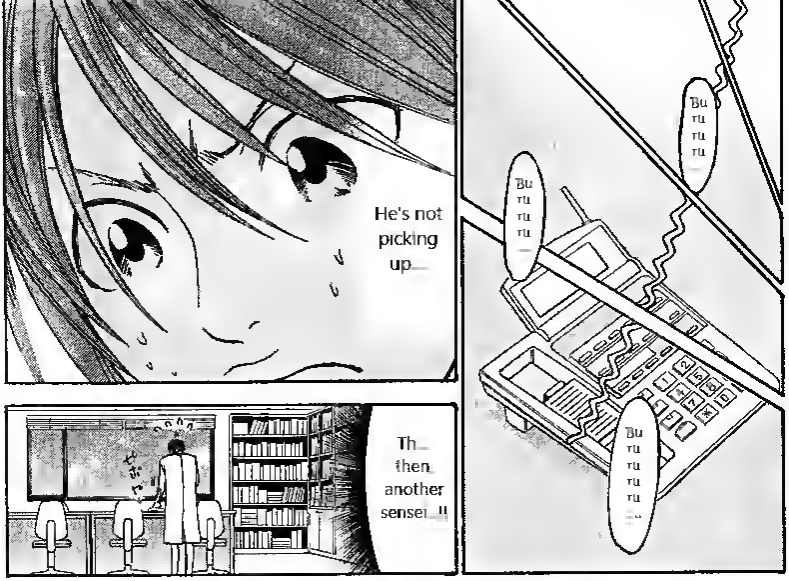
You'll be fired!!

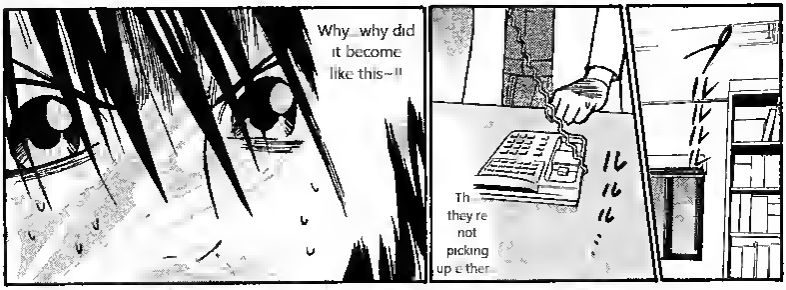
And then you probably wouldn't even be able to continue being a vet--!!
Not only that, but if Meiou starts to keep an eye on you, then no hospital will be willing to hire you!
.....
.....



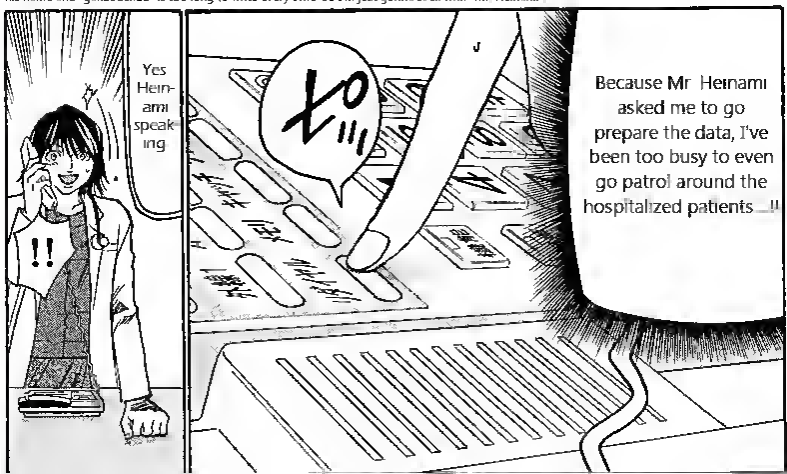
If you won't let me go then--
I can't just leave someone who is seeking help to die!
Eh!?
...Then that's fine...

!!
Just what is he...
Tha... that person...
This isn't the time to be doing this!
I have to tell the professor!!
You can just go ahead and fire me or do whatever the hell you want.





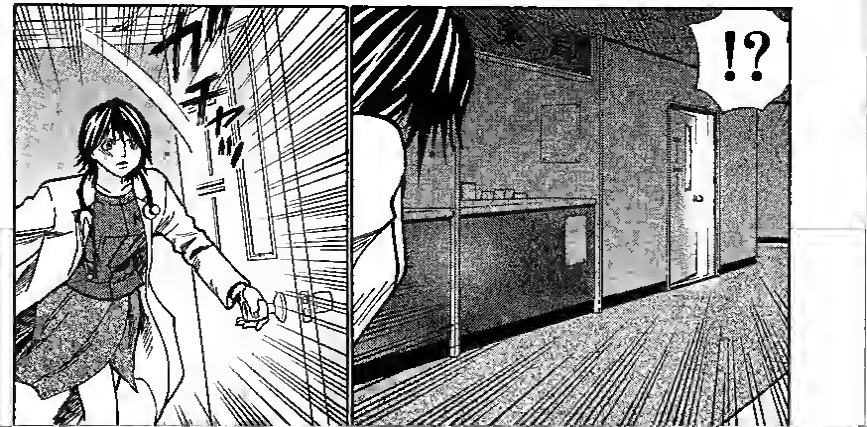
T/N: She actually says "He nam=gakubuchou" which means "Dean" but there's no good way to put the title in English with his name and "gakubuchou" is too long to write every time. So I'm just gonna stick with "Mr. Heinami".



Yes Hein-ami speak-ing
!!
Because Mr. Heinami asked me to go prepare the data, I've been too busy to even go patrol around the hospitalized patients...!!

I currently am not available Please leave a message after the...
D...Dean! Please come to the hospital immed-iately!
Some person from R.E.D. called Iwashiro is just accepting patients on his own....
It's no good...
As expected, no one picked up....

In any case I have to stop him!!
!



!?

Wha...
EHH HHH HHH HH!?
What's with this!?

St...stop it!!!!!
Damn... I can't find the medicine!!
Oh, Mizuki-san you've come at a good time

I can't...
There's no way I would possibly tell you.
.....
And also, lido-something or another ....where are those medicines!?
Propo-something, Isoflur-something, and ringer-something...

*Note: What Tesshou actually means to say is propofol, isoflurane, lactated Ringer's solution, and lidocaine; these are medicines needed in treating stomach torsion.

8

I can't do examinations or treatments on my own!!
And besides, I've only been a resident for 2 years, you know?
I told you that the rules have already decided it!!
It's impossible!
In the first place aren't you just a resident too?
That's normal isn't it!?
Do you have to do a residency for so long here?
Oh, found it
...Eh?

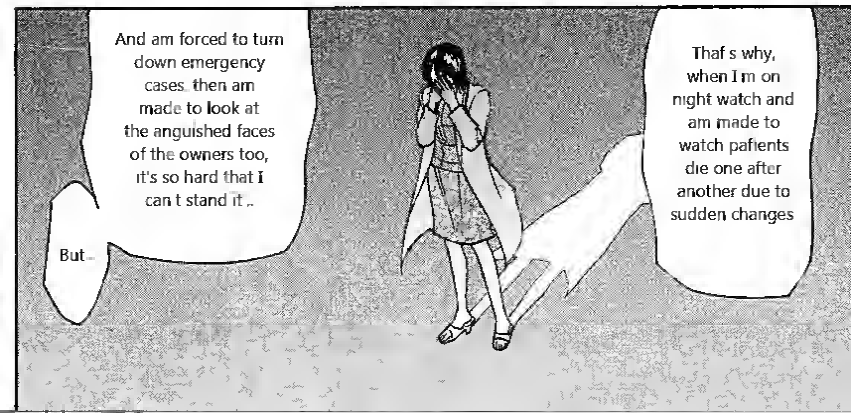
Well, in exchange for those 2 months I had to expenence hell
Eh....? Really?
Over there
I'm not a resident
At R E D , your residency finishes in 2 months
It was during the time I was in the first deparement...

At that time...
I have to give up...
.....
If a hospitalized patient suddenly undergoes some change at night, what do you do?
Oh, it's this...
Rather, in the first place, why does this hospital only have a resident here?
At least, if a sudden change occurs I'm supposed to call a professor but,
Because it's too bothersome nobody picks up the phone...
R really ?
It's like that at all university veterinary hospitals.
Wha... what's with that!?
!?
What are you saying?
If you're a vet then you should have heard about it right?
10

That... "University veterinary hospitals examine illness, but don't look at the troubles"
Veterinary universities are notorious for just treating the illnesses but otherwise leaving the hospitalized patients completely alone
You really didn't know that?
I...can't believe it, what's with that....

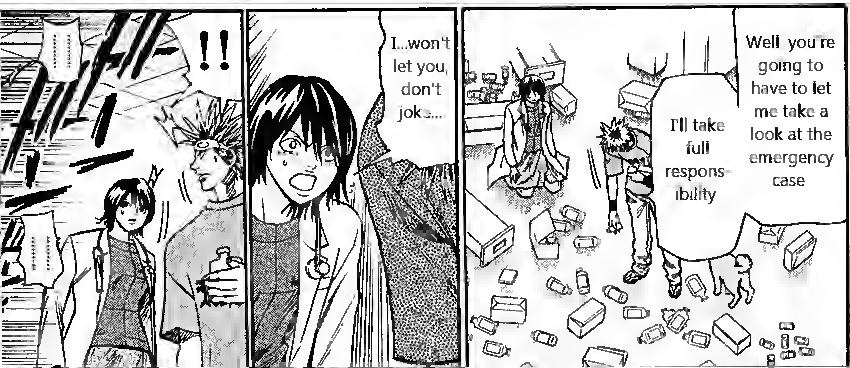
*Note: How hospitalized patients are treated at university veterinary hospitals varies between universities. Within them, there are some that properly look after the patients.

I have to be fine with it!!
There is not a single person amongst them that seriously thinks of the owners!!
Even if they appear to be the same as family to the owners, to the professors and assistant professors here, the patients are "mere animals"...
When I was a student, I too believed that the veterinarians were the people that thought the most about the feelings of the patients and the owners



And am forced to turn down emergency cases. then am made to look at the anguished faces of the owners too, it's so hard that I can t stand it ..
But..
That s why, when I m on night watch and am made to watch patients die one after another due to sudden changes

Because if you don't give up, you can't continue going on
.....
This is reality! Being a veterinarian just means that you have to give up right!?
I see!



!!
I...won't let you, don't joke....
Well you're going to have to let me take a look at the emergency case
I'll take full responsibility

If it had taken any longer, I would have just broken the glass!

Thanks for waiting!

I... got caught up in the moment and gave it to him without thinking but ..

I have to stop him somhow
Anyhow

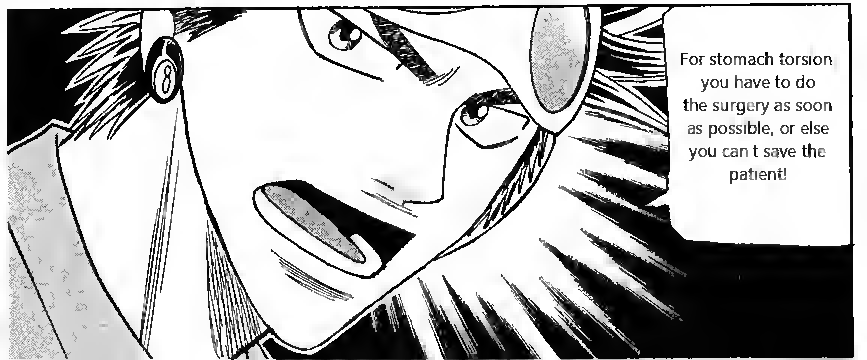
And in the first place... can that guy even properly examine the patient?
Even if he said he's not a resident, no matter how I look at it, he has to be around the same age as me...!!

Please.... save Loiuse.
Thank you very much.
Then, please wait here! I'll definitely cure him!!
Y... yes!!

Mizuki-san!
No...I can't... do it
To drive those people away at this point...
キュ?
This patient has stomach torsion after all!!
I need to do an emergency surgery so I'm gonna be borrowing your surgery room!

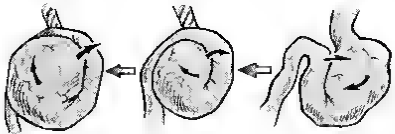
That's crazy...!!
Don't tell me... that guy was able to diagnose it as a stomach torsion without a scan!?
...Eh?

Eh...
Like we have time for that!
In order to diagnose stomach torsion it should be necessary to use an x-ray or a blood test!!
Have you really examined a dog with stomach torsion before?
Wait a moment!
Wai...

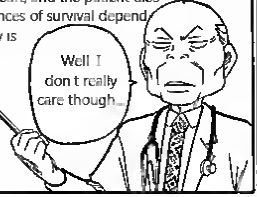


For stomach torsion you have to do the surgery as soon as possible, or else you can t save the patient!

Rei Heinami's One Point Commentary <3



Stomach torsion is an illness in which the stomach twists around. Due to all the openings of the stomach being closed off from the twisting, the food ferments and the resulting gas produced expands the stomach fully. The expanded stomach then puts pressure on the surrounding blood vessels. As a result, blood no longer flows out from the heart, and the patient dies in just a few hours. The chances of survival depend on how early on the surgery is done.



When the belly has swollen up and breathing becomes painful, it's most often stomach torsion right?
In which case, it's better to just skip the examination and just hurry up and do the surgery!

No way...
At R.E.D., everyone always says that!!
Things like x-rays and blood tests are just things that you do so that you can make up excuses when you are accused if the patient dies

Flatulence Disease: It a disease where gas builds up in the intestine, resulting in swelling. It has similar symptoms to stomach torsion. To tell the difference flatulence disease has no intestinal activity so you can't hear them, but for stomach torsion the intestines have activity, thus you can hear them move.
When the belly is swollen up it could also be flatulence disease right!?
A... and, in the first place...
How did you tell if the intestines were active or not?
You're not even carrying a stethoscope with you!

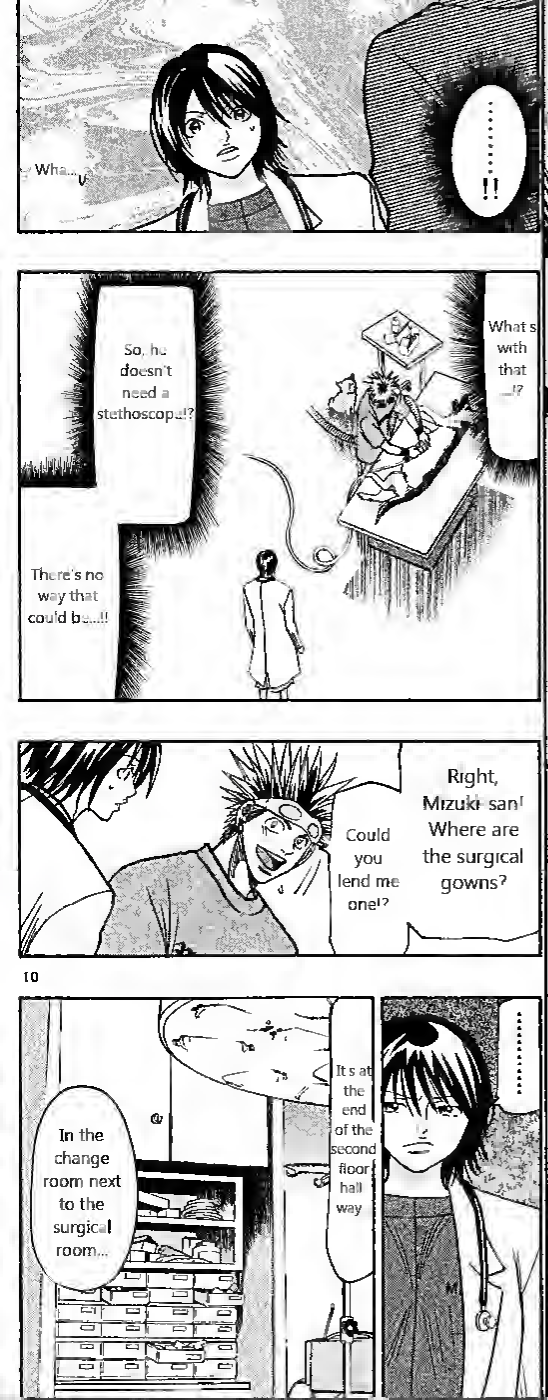
With all that, how could you tell it was stomach torsion!?
Irresponsibility has its limits!
I did properly hear that the intestines are currently active.

Wha...
.....
!!

What's with that ...!?
So, he doesn't need a stethoscope!?
There's no way that could be...!!

Right, Mizuki-san! Where are the surgical gowns?
Could you lend me one!?

In the change room next to the surgical room...
It's at the end of the second floor hall way
.....



Because I have an absolute sense of sound...!

With him like that, the patient definitely won't be saved!!
Every-thing about him is crazy!
What's with that guy...
I see thanks!

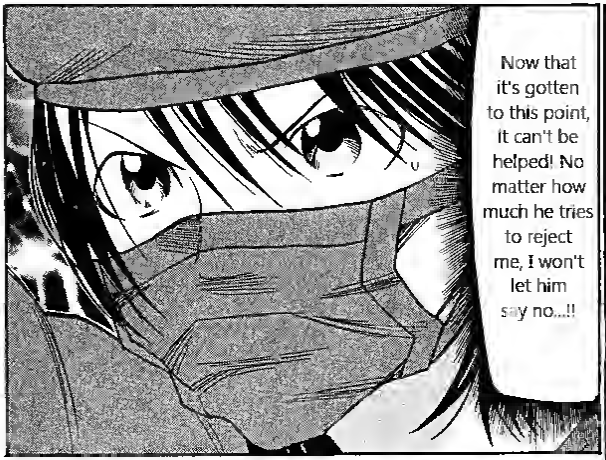
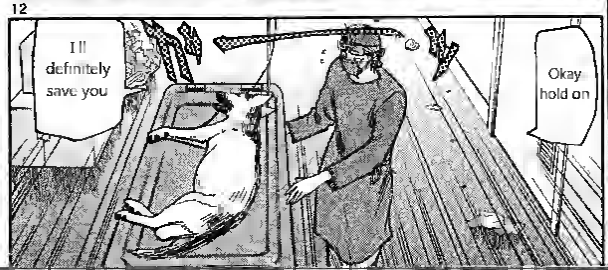
If I let the patient die now...
Even though I said that he did it on his own,



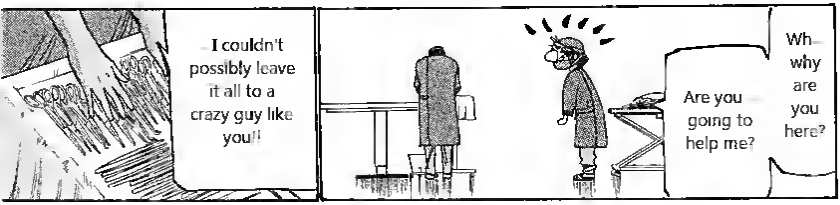
Now that it's gotten to this point, it can't be helped! No matter how much he tries to reject me, I won't let him say no...!!

Then I would definitely be fired ...!!



I'll definitely save you
Okay hold on

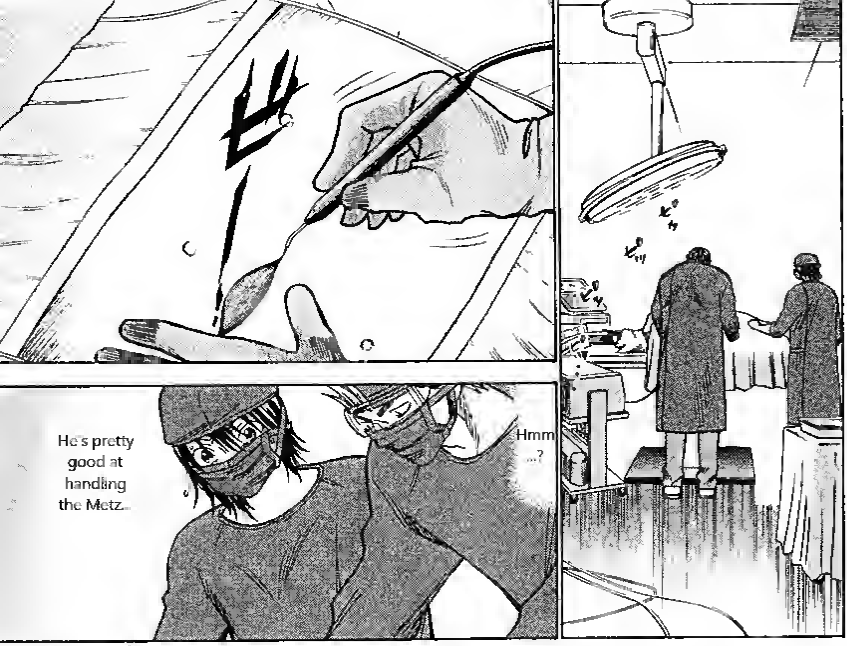
Eh!?
!!



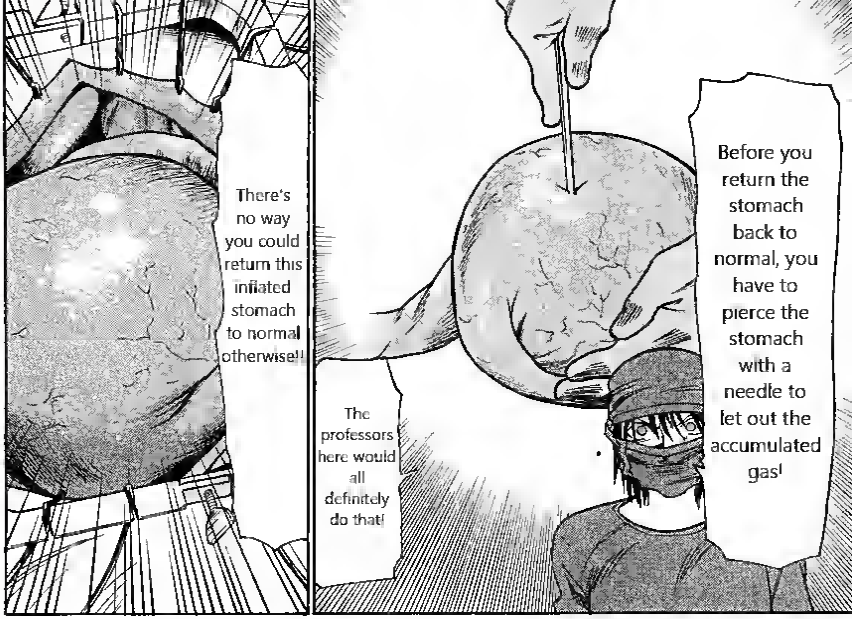
...I couldn't possibly leave it all to a crazy guy like you!!
Are you going to help me?
Wh-why are you here?

Sorry but, I'm going to have you do as I say!!
If you do something weird, I will teach you!

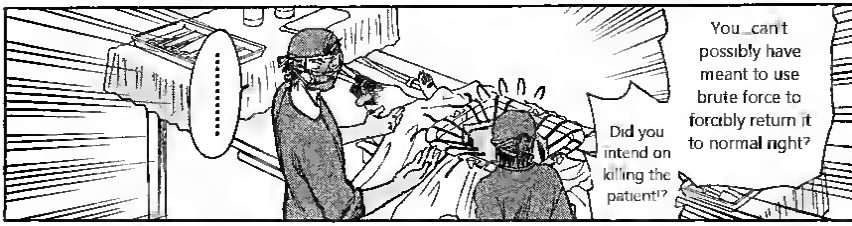
Eh...
Is that really alright!?
That'll help a lot!!
For a resident like me to say that...
Rather are you really okay with that!?
If it's like that, both he and I will be happier right?
Rather than just 1 person working, if 2 people work together, the surgery time will shrink and the burden on the patient will also decrease!
.....!!
Then, I'll be starting the surgery!



T/N: Metz = knife



There's no way you could return this inflated stomach to normal otherwise!!
The professors here would all definitely do that!
Before you return the stomach back to normal, you have to pierce the stomach with a needle to let out the accumulated gas!

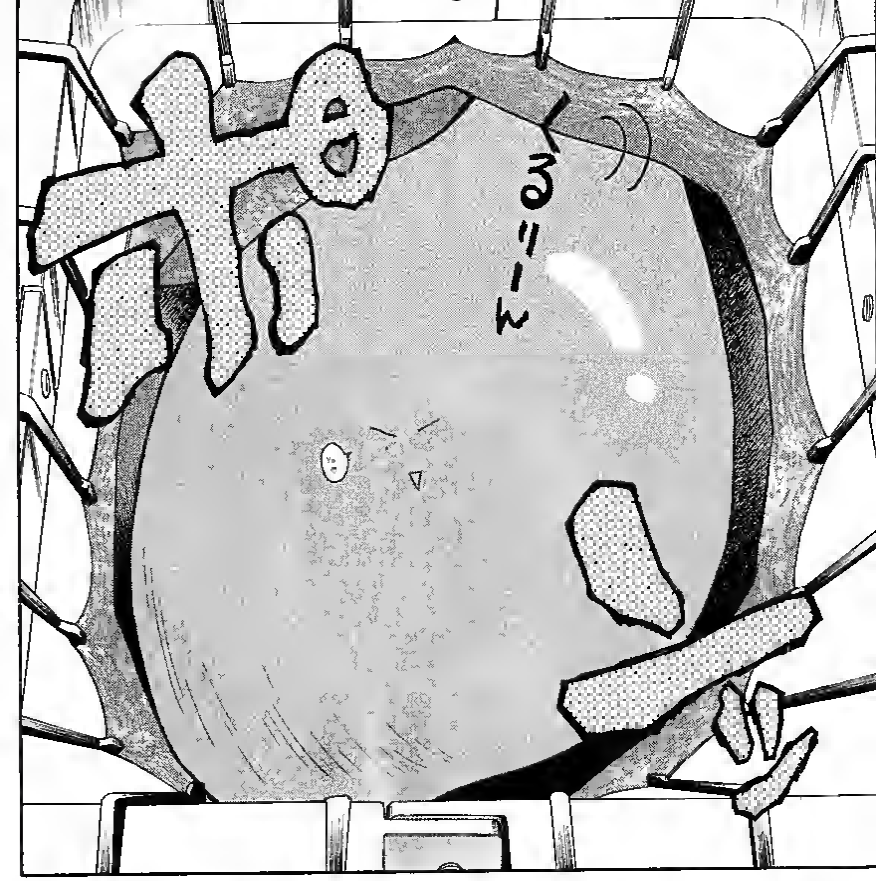


.....
Did you intend on killing the patient!?
You...can't possibly have meant to use brute force to forcibly return it to normal right?

!
If I weren't here, just what would have happened ...
I can't believe it...
16
You don't need to do anything else
What are you saying?
?

Tesshou: UORYAAAAAAAAAA

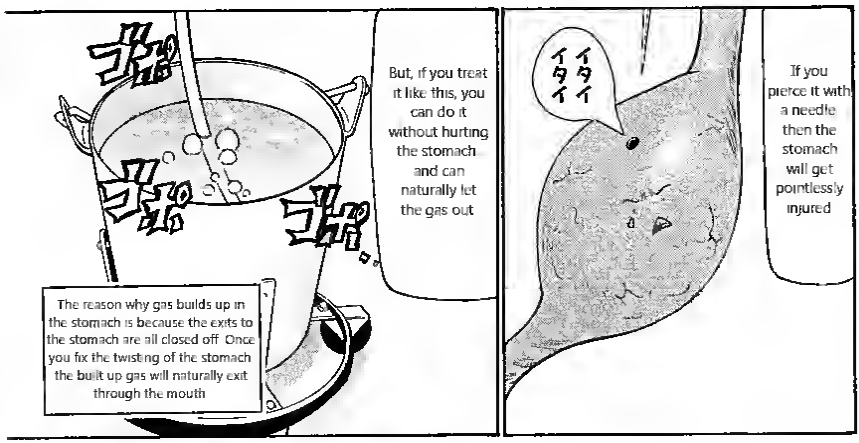
Mizuki: KYAAAAAAAH



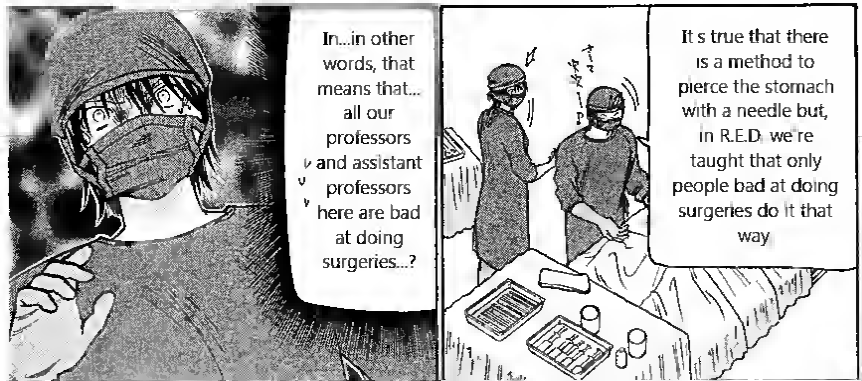
The
ウィーン

Alright, I did it!!
……
Eh ?

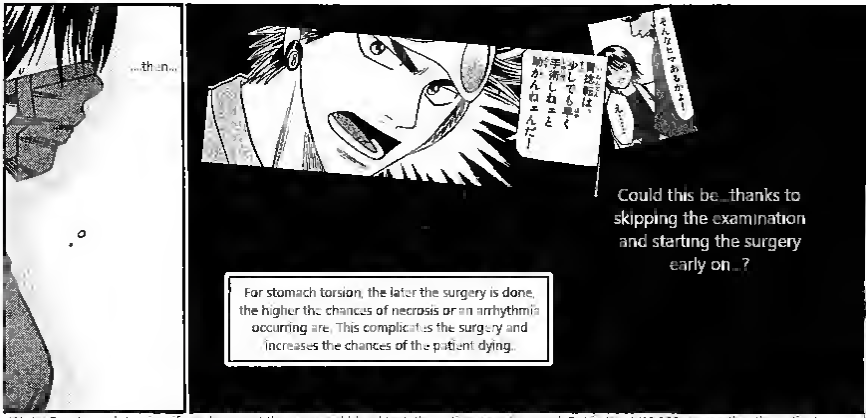
Hey!
Once you've figured out the trick it's unexpectedly easy!
No way
This can't be...



But, if you treat it like this, you can do it without hurting the stomach and can naturally let the gas out
The reason why gas builds up in the stomach is because the exits to the stomach are all closed off. Once you fix the twisting of the stomach the built up gas will naturally exit through the mouth
イタイ
イタイ
If you pierce it with a needle then the stomach will get pointlessly injured

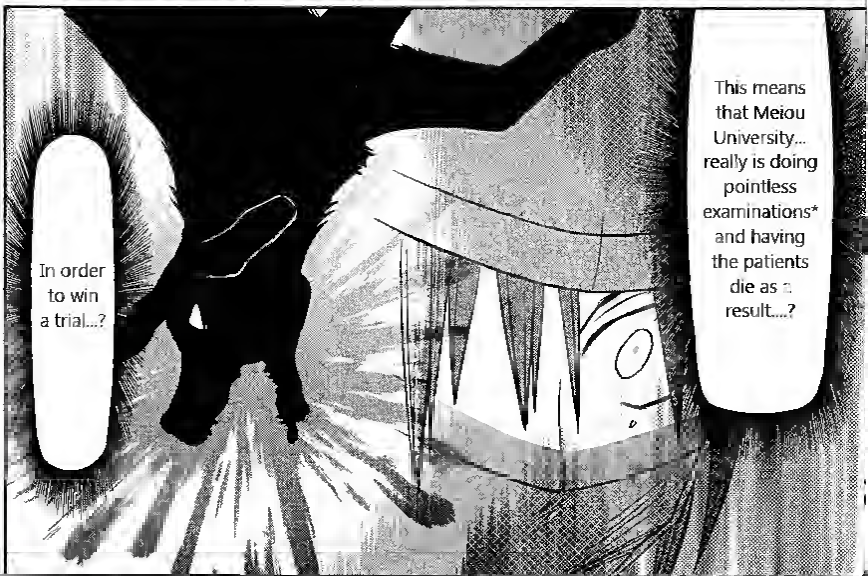


In...in other words, that means that... all our professors and assistant professors here are bad at doing surgeries...?
It s true that there is a method to pierce the stomach with a needle but, in R.E.D. we're taught that only people bad at doing surgeries do it that way

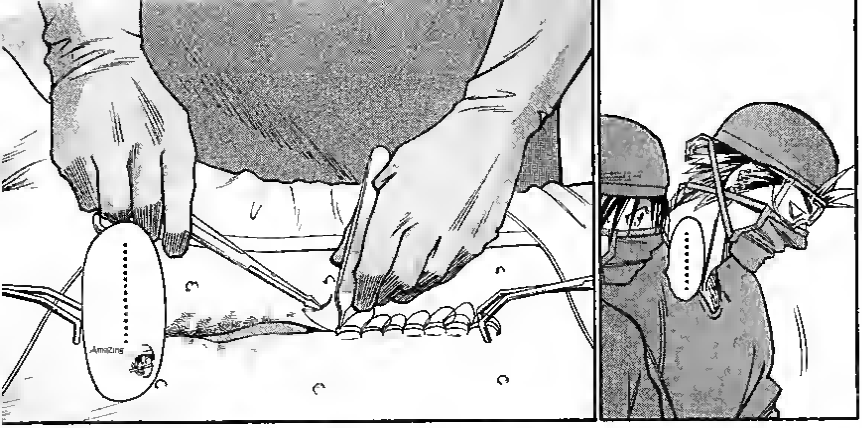


For stomach torsion, the later the surgery is done, the higher the chances of necrosis or an arrhythmia occurring are. This complicates the surgery and increases the chances of the patient dying.

*Note: For stomach torsion, if you leave out the x-ray and blood test, the patient may be saved. But in the 1/10,000 chance that the patient dies and you have to undergo a trial, doing the tests allows you to say "The diagnosis was done cautiously and perfectly" in defense.



This means that Meiou University... really is doing pointless examinations* and having the patients die as a result....?
In order to win a trial...?



……
Amazing
……

He's fast
He's much better than the professors here
それに――

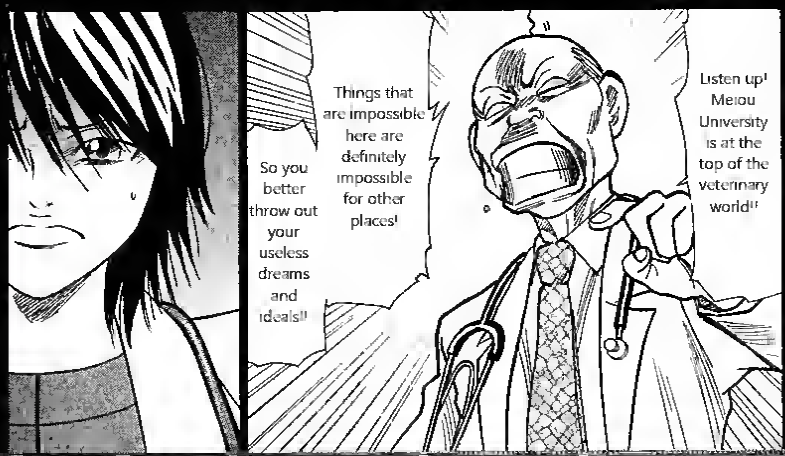
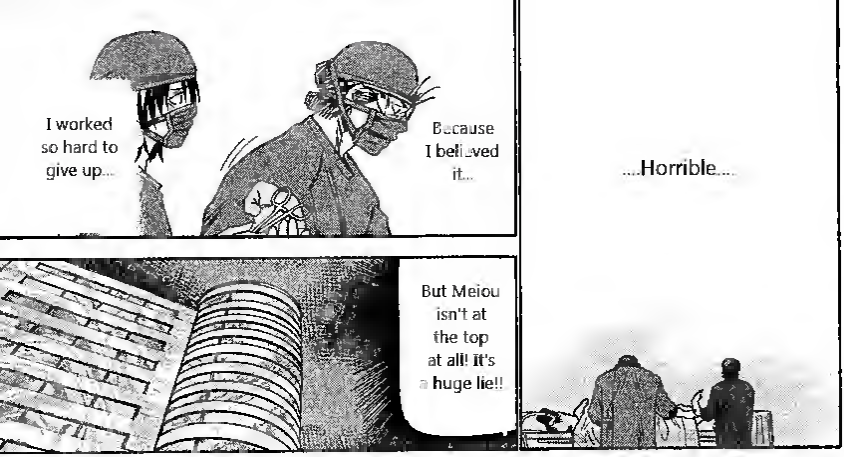
This person really is just thinking about the patient...

Even though Mimi was hospitalized at Meiou University, why did she die!!
Why? Why is it like that!?

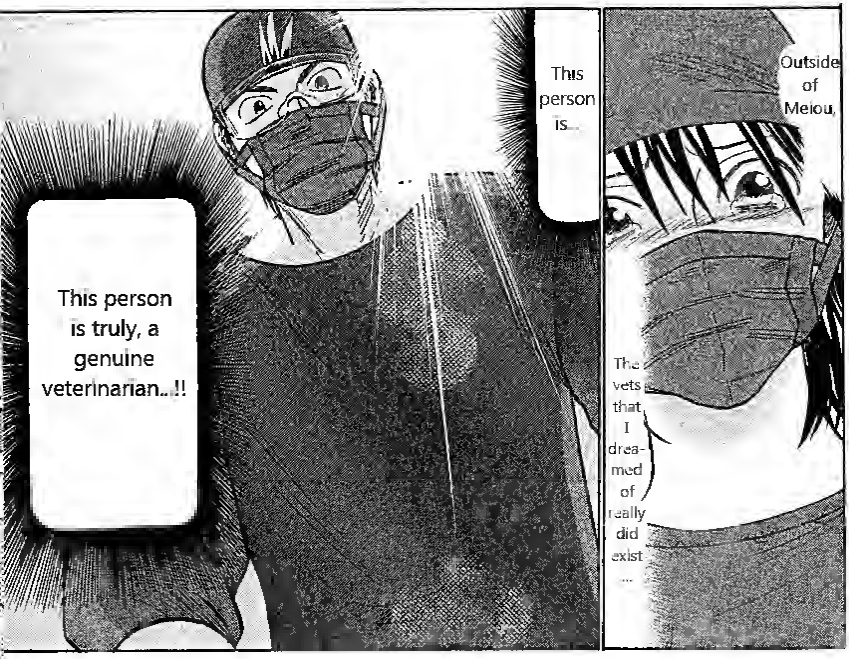
Give my Mimi back!!
Give her back!
It can't be helped this is reality
Stop being so naive!!
Why are you crying!



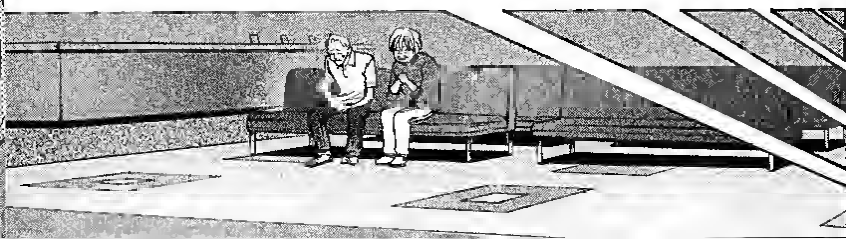
So you better throw out your useless dreams and ideals!!
Things that are impossible here are definitely impossible for other places!
Listen up! Meiou University is at the top of the veterinary world!!



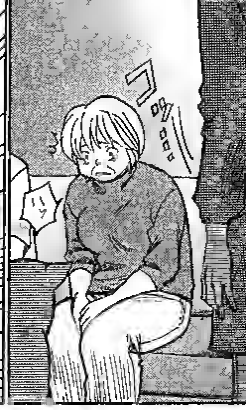
I worked so hard to give up...
Because I believed it...
....Horrible....
But Meiou isn't at the top at all! it's a huge lie!!



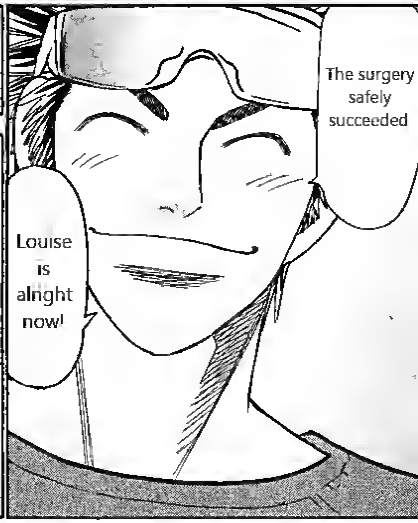
This person is truly, a genuine veterinarian...!!
This person is...
Outside of Meiou,
The vets that I dreamed of really did exist....



!



...ah...



The surgery safely succeeded
Louise is alright now!

Thank you very much!!
We are... truly grateful!!

.....

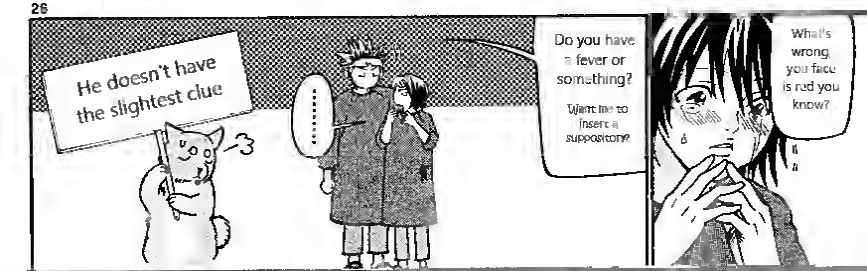
Thanks to her, the surgery time got cut down by a lot!!
Ah, right! This Dr. Mizuki here helped out too!
Now, but Louise really worked hard
She's really amazing
Wahhh doctor
What are you saying, properly say your thanks!
.....!

I really didn't help out at all....
N...no um... not really

.....
I really... didn't do anything...
Thank you very much! Thanks to you, Louise is...!
Thank you!

Smile smile
Glance
I'm sure... that these people don't know...
That ever since I became a vet, this is the first time that I was happy to be one...
Then let's go visit Louise!
Yes!!

There's no way you could know...
That this is all thanks to you...



He doesn't have the slightest clue
Do you have a fever or something?
Want me to insert a suppository?
What's wrong, your face is red you know?

I hope you enjoyed the chapter!!

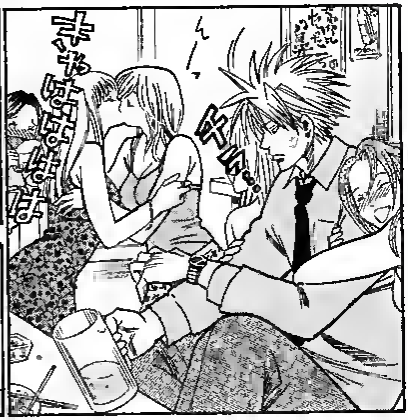
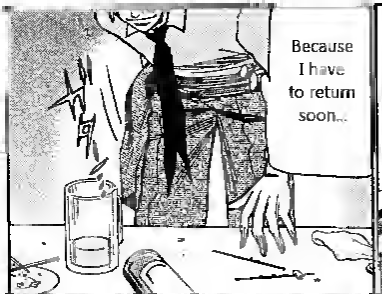
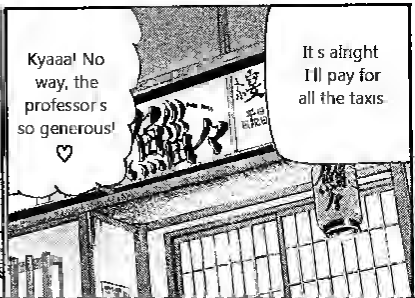
Chapter 91: The only man who slept

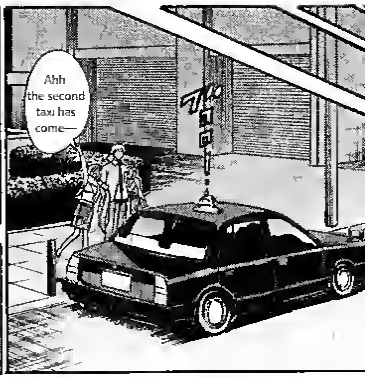


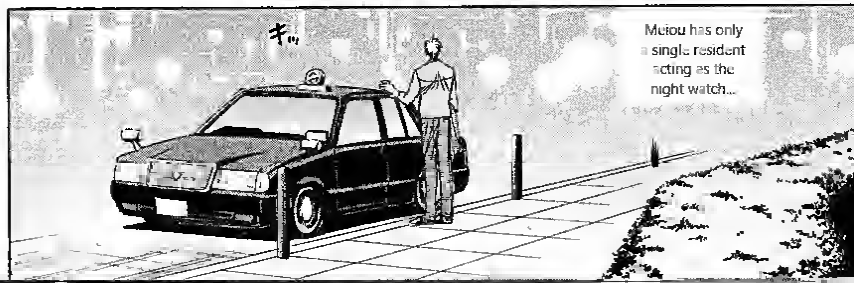




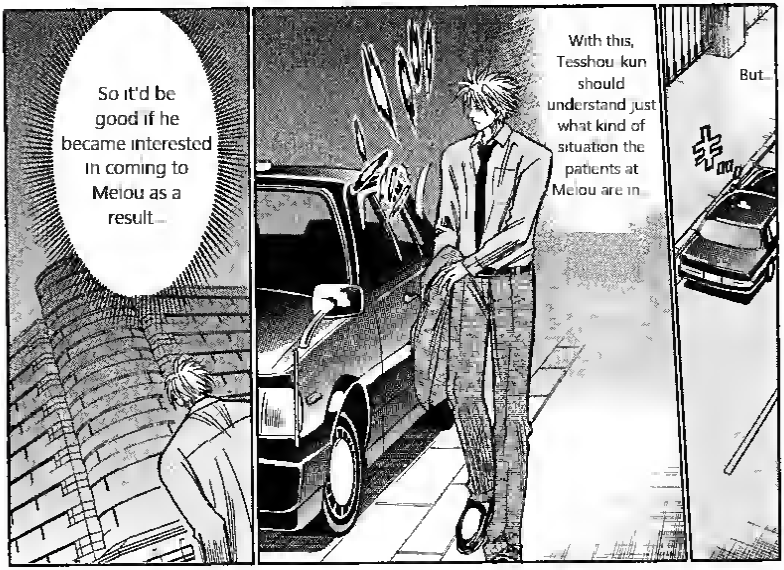
Chapter 91!

The only man who slept



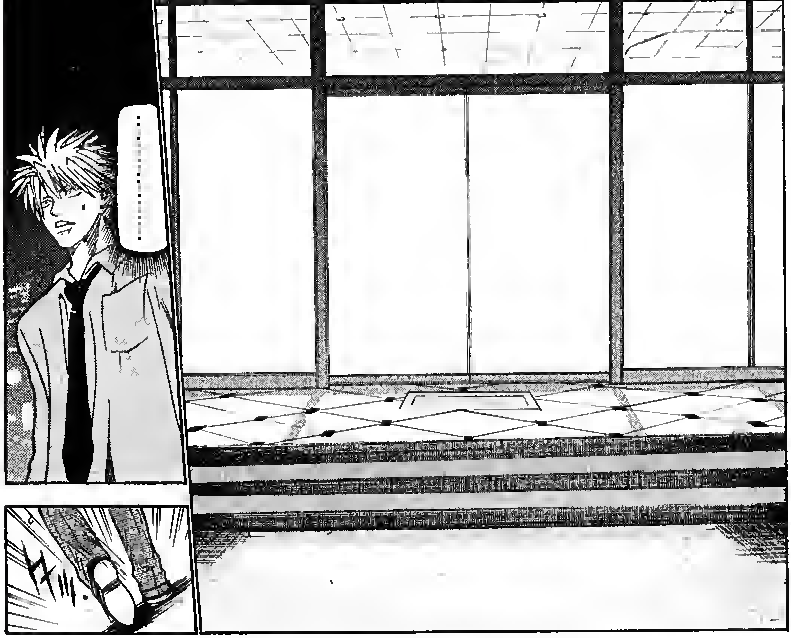


If it's Tesshou kun, I'm sure he'd just selfishly say that he'd look at the emergency cases or something but...
Melou University south gate
It's a situation in which not only the emergency cases but even the hospitalized patients can't be saved...
Alright
There's no way that the resident on night watch would let him so they're probably in a huge fight right now...



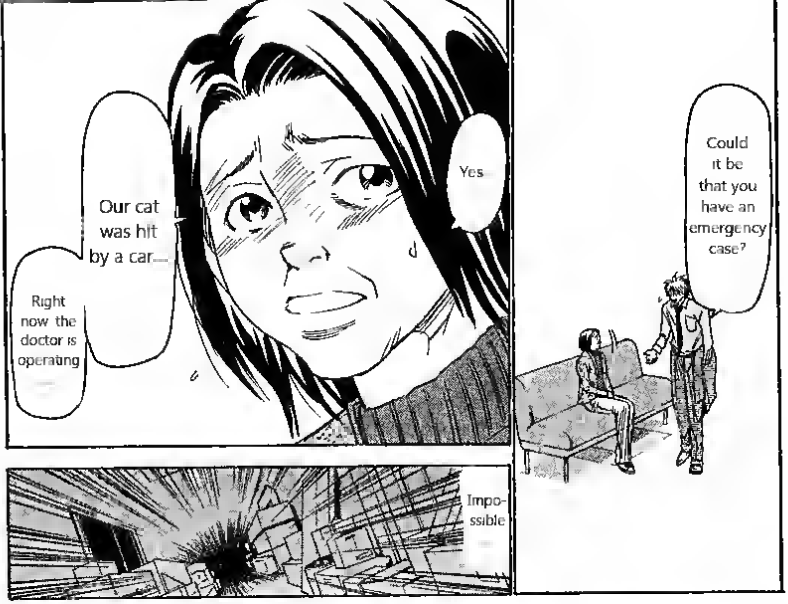
So it'd be good if he became interested in coming to Melou as a result...
With this, Tesshou kun should understand just what kind of situation the patients at Melou are in...
But...

Eh?



.....

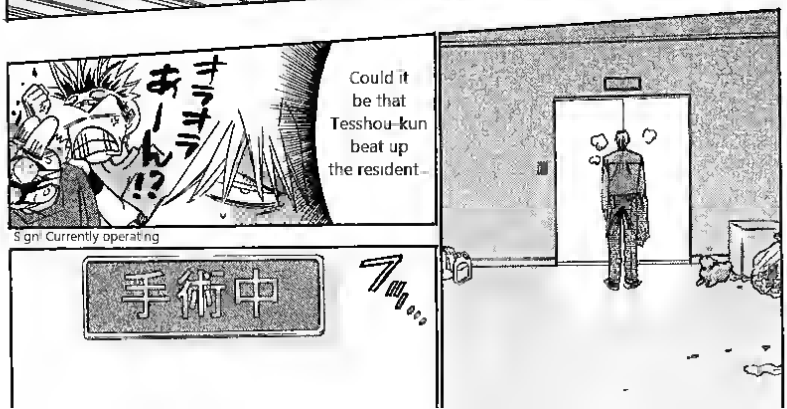
The front door is open...?
Excuse me..



Could it be that you have an emergency case?
Yes
Our cat was hit by a car—
Right now the doctor is operating
Impo-ssible

Why didn't the resident stop him!?

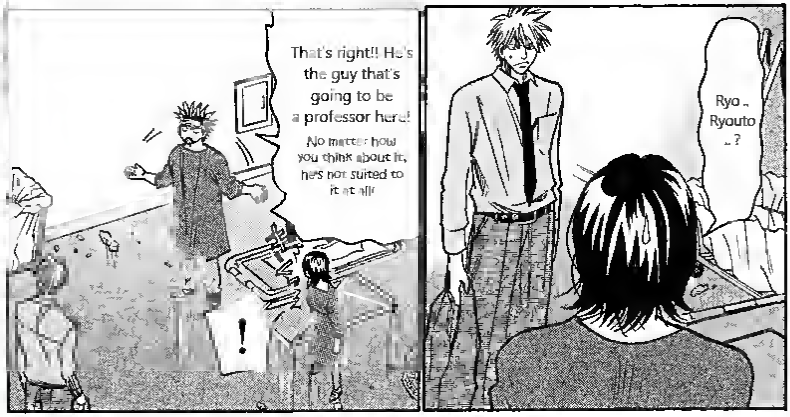
5



Could it be that Tesshou-kun beat up the resident—
オラオラおーん!?
Sign: Currently operating
手術中

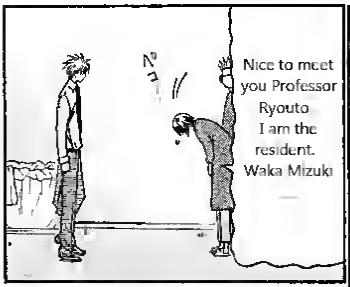
Ahhh!
The surgery ended pretty smoothly huh!
ガラガラ
Yeah! It's thanks to you helping out!
Thanks, Mizuki-san!
Ryouto
So you've finally returned, you asshole!!

6



That's right!! He's the guy that's going to be a professor here!
No matter how you think about it, he's not suited to it at all!
!
Ryo.. Ryouto..?

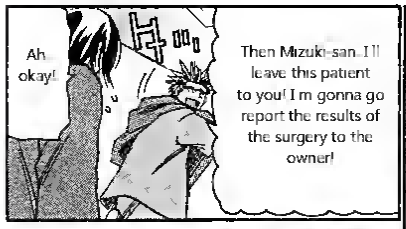
ナアアアア



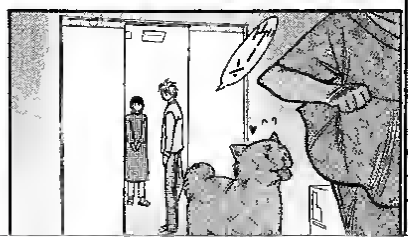
Nice to meet you Professor Ryouto. I am the resident. Waka Mizuki

Not only did the resident not stop Tesshou-kun, she even helped out...?

……

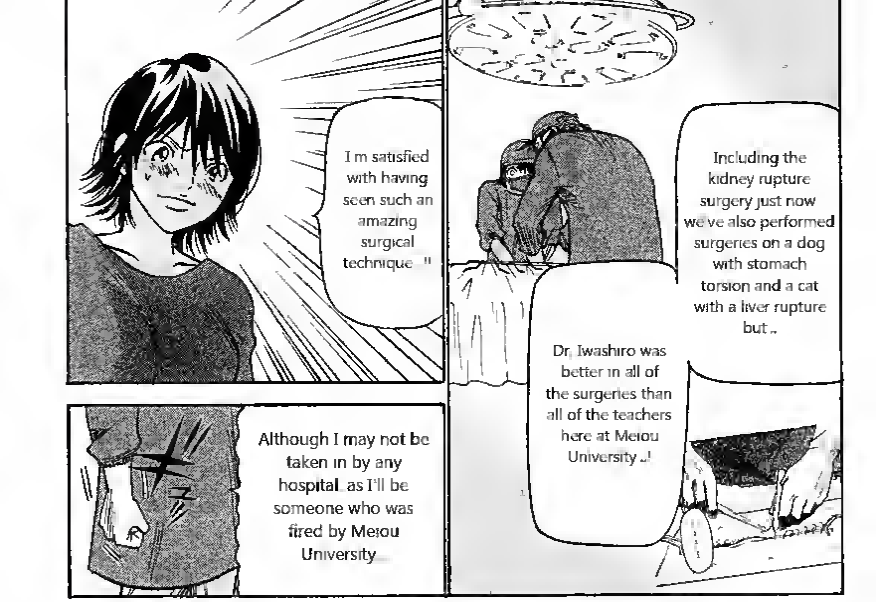


Ah, okay!
Then Mizuki-san. I'll leave this patient to you! I'm gonna go report the results of the surgery to the owner!



Why are you acting all surprised? If it's about this patient, there's no need to worry!
He was in a car accident and his kidney ruptured but I properly fixed him!!

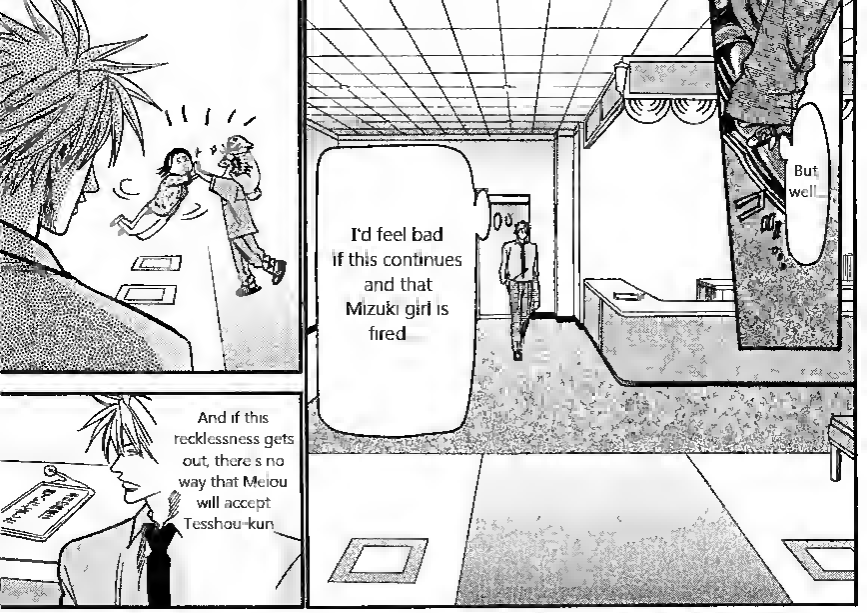
It is all my fault that this has happened...
...I deeply apologize.
I'm going to...be fired right....
!
Professor Ryouto .....
But
.....
I don't regret it.



I'm satisfied with having seen such an amazing surgical technique...!!
Including the kidney rupture surgery just now we've also performed surgeries on a dog with stomach torsion and a cat with a liver rupture but...
Dr. Iwashiro was better in all of the surgeries than all of the teachers here at Meiou University...!
Although I may not be taken in by any hospital, as I'll be someone who was fired by Meiou University...

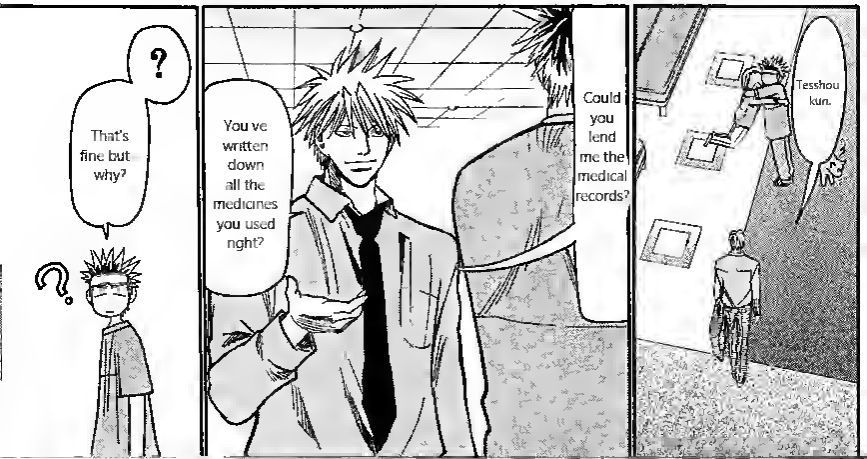
.....
Please excuse me!
I haven't done anything wrong!
So I have no regrets!!

So that girl lost out to Tesshou-kun's enthusiasm...
I see...
To have made a resident raised by Meiou University start to say that much in just a single night...
Tesshou-kun is pretty amazing...
This is just way too amusing!!
Amusing...
Coming to Meiou University was an awesome idea....!
Ha ha ha ha
To be able to see this much...

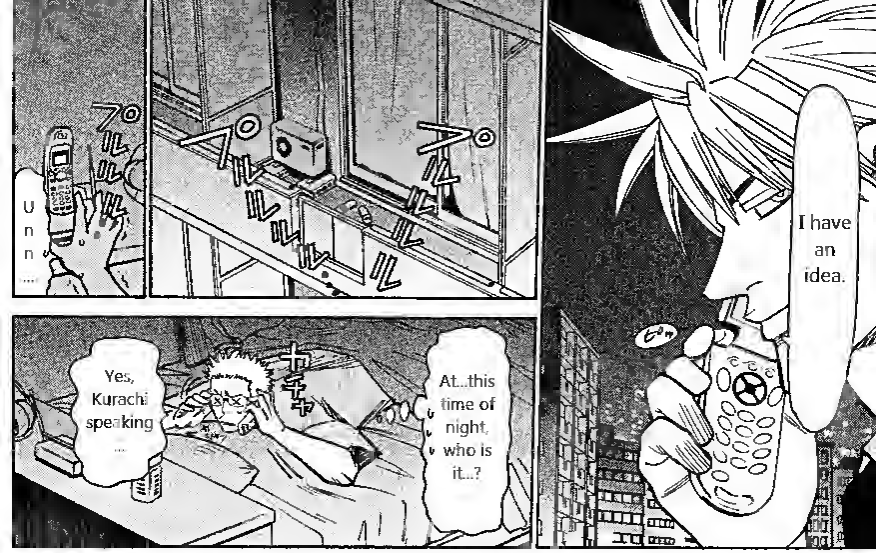


But well...
I'd feel bad if this continues and that Mizuki girl is fired
And if this recklessness gets out, there's no way that Meiou will accept Tesshou-kun

It can't be helped, I guess I'll lend a hand...



Tesshou kun.
Could you lend me the medical records?
You've written down all the medicines you used right?
That's fine but why?



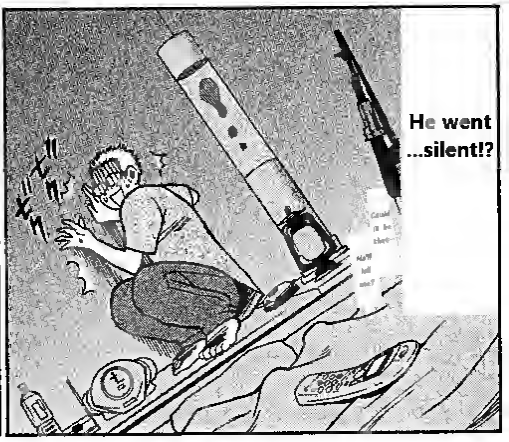
I have an idea.
At...this time of night, who is it...?
Yes, Kurachi speaking ...
Unn ....

Hello, it's Ryouto—
Could you come to Meiou University within 30 minutes?
You see, I have a little problem
Th thirty minutes !?
Well, I won't let you tell me it's impossible
.....

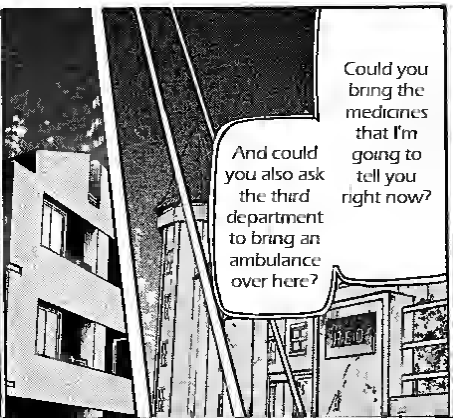
If—if I refuse, what might happen—?
Ah— um—

.....

Ah, Senou-san?
Yes, this is R.E.D.'s second—



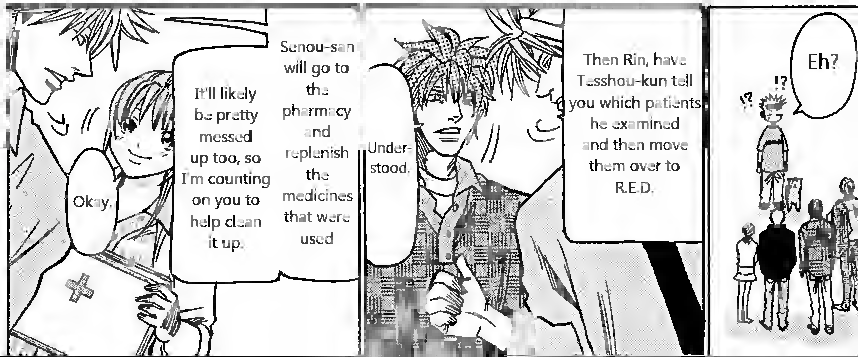
He went ...silent!?



Could you bring the medicines that I'm going to tell you right now?
And could you also ask the third department to bring an ambulance over here?

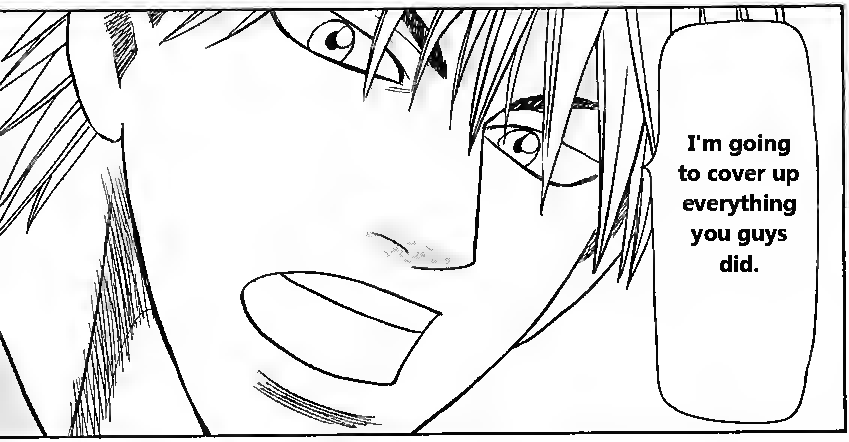
カリ
Alright got it
Then, I'm gonna go take a look at the patients, so if another emergency case comes tell me kay

ガヤ ガヤ

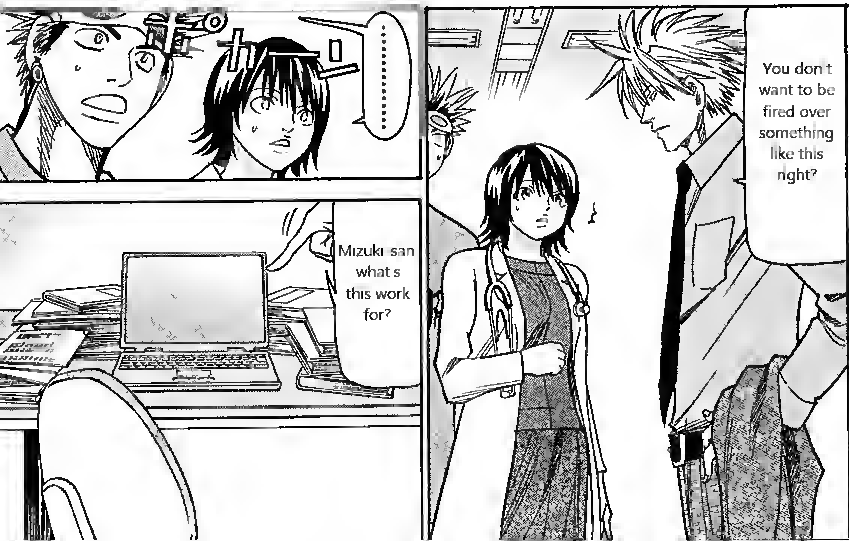


Okay.
I'll likely be pretty messed up too, so I'm counting on you to help clean it up.
Senou-san will go to the pharmacy and replenish the medicines that were used
Understood.
Then Rin, have Tasshou-kun tell you which patients he examined and then move them over to R.E.D.
Eh?
!?

Can't you tell?
Wh... what's going on, Ryouto?
Ehh..?

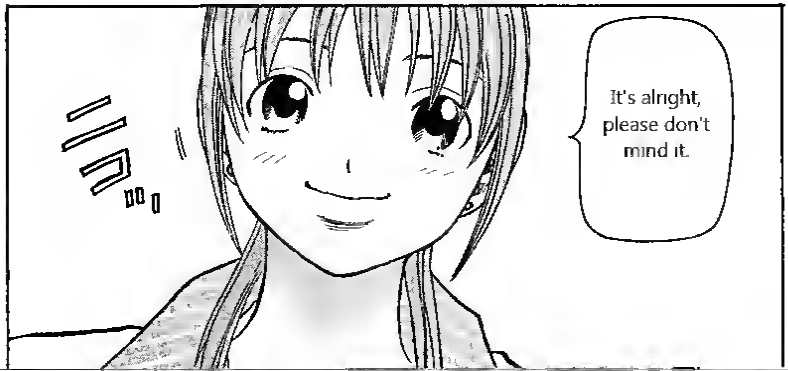


I'm going to cover up everything you guys did.



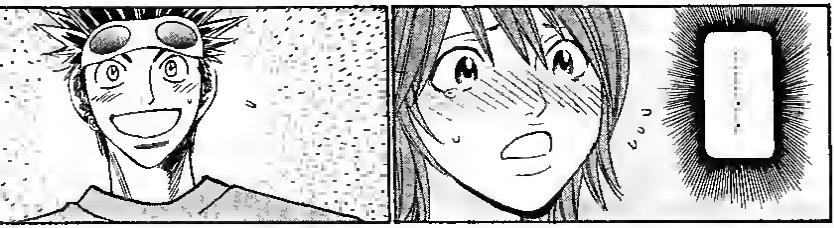
Mizuki san what's this work for?
You don't want to be fired over something like this night?

Could it be due by morning?
Yeah but I already gave up on it..
Ahh..I was asked to prepare materials for lectures by Mr. Heinami
But..I couldn't
Then Kurachi-kun, help Mizuki-san do her work
Yeah, got it
Is... it really okay!? Everyone..



It's alright, please don't mind it.

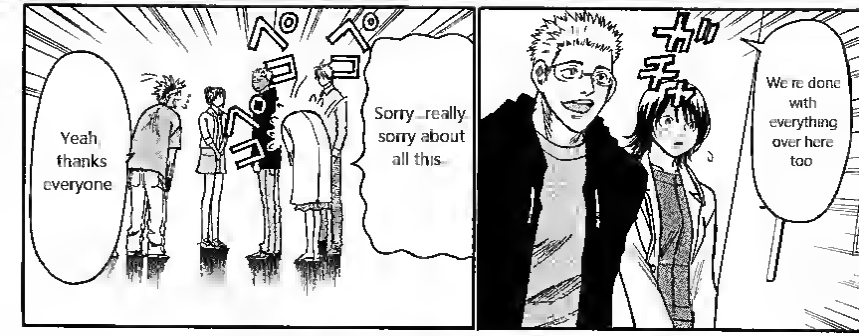
I heard about the situation.
You guys weren't in the wrong at all and
When you're in trouble, you should just ask for help!



.....
ドクン

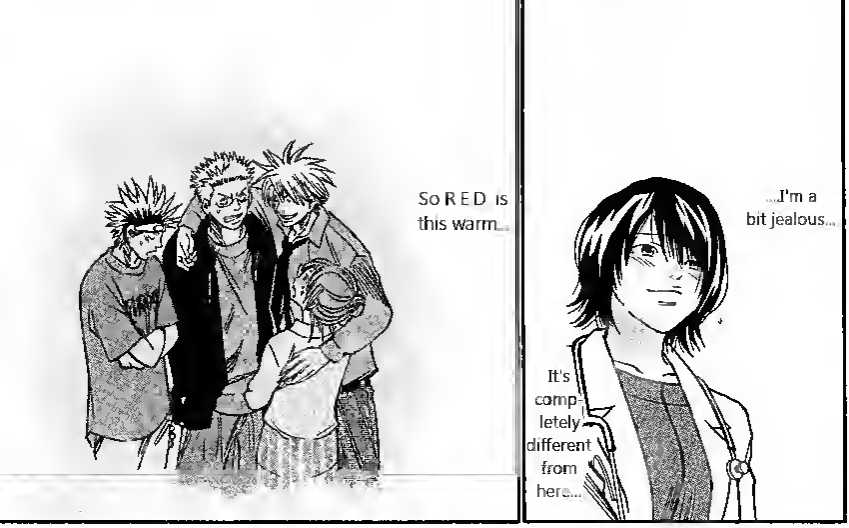
ZZZZZ

Good, everything's been returned to normal ♡
ふぁーあ



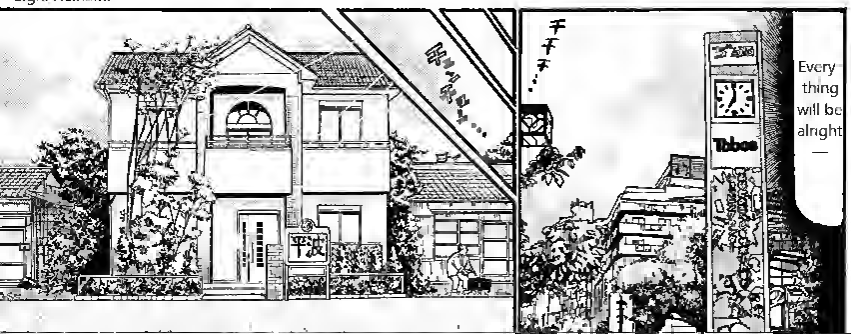
Yeah, thanks everyone
Sorry...really sorry about all this...
We're done with everything over here too

But, weren't you just sleeping the entire time!!
Ahhh, it's pretty nice seeing what we can accomplish when everyone works together—

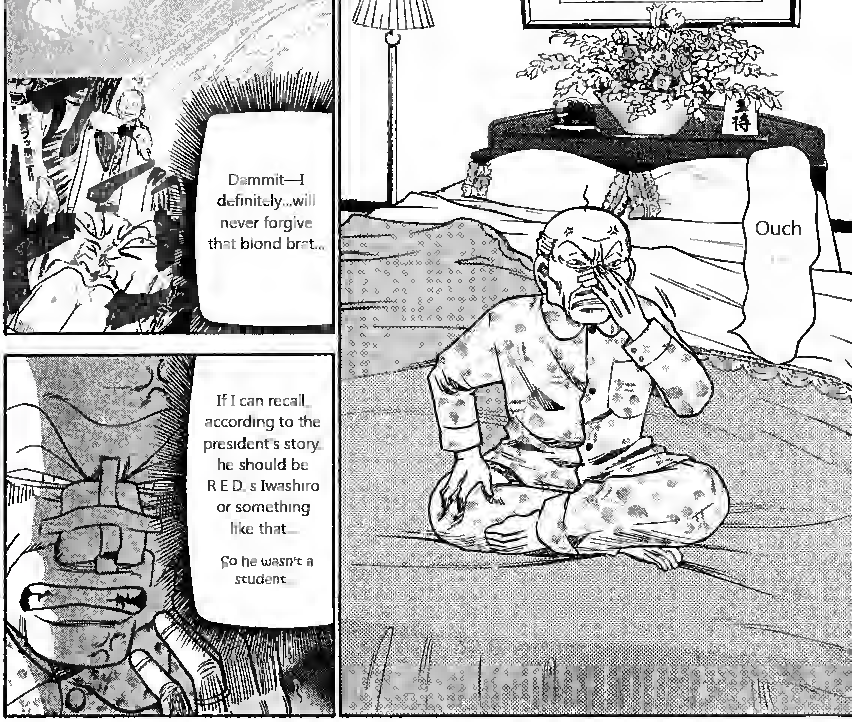


So RED is this warm...
...I'm a bit jealous...
It's completely different from here...

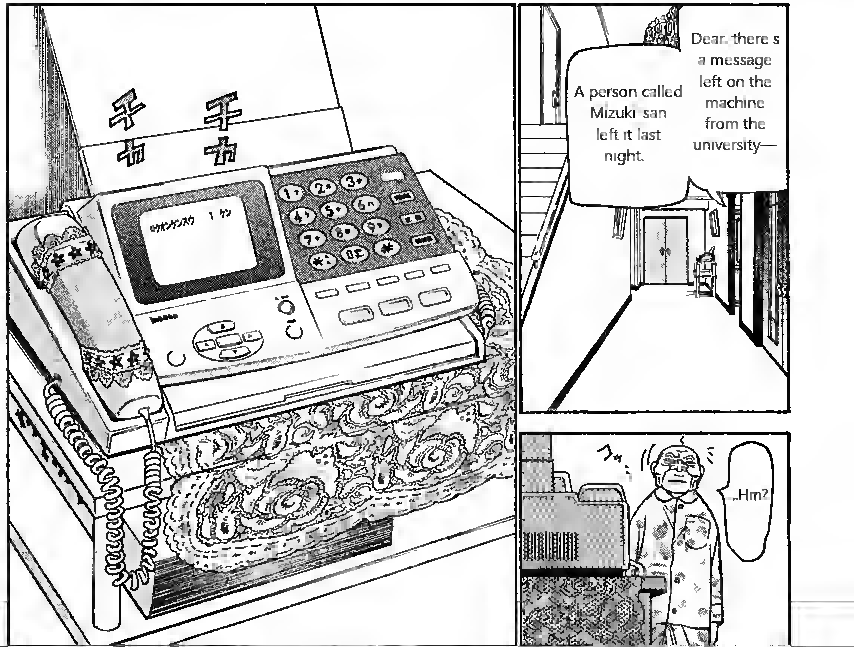
Thank you... very much!
Mizuki-san, I'll contact the owners of the hospitalized patients and have them keep everything a secret.
With this, there's nothing to worry about.
There's no one left to doubt anymore...
All of the evidence was erased too...



Every thing will be alright —



Dammit—I definitely...will never forgive that blond brat...
If I can recall, according to the president's story, he should be R.E.D.s Iwashiro or something like that...
So he wasn't a student...
Ouch



A person called Mizuki-san left it last night.
Dear, there's a message left on the machine from the university—
...Hm?

I hope you enjoyed the chapter!!

Some person from R.E.D. called Iwashiro is examining patients on his own!!

Woof!
You've made great progress! That's great, isn't it Louise
You can go home soon!
Alright!
2 days later

If you weren't at Meiou University that night,
Then, it probably would've been too late for her stomach torsion to be cured
She really was lucky, wasn't she, Dr. Teshou
That's very true
she's licking your way too much

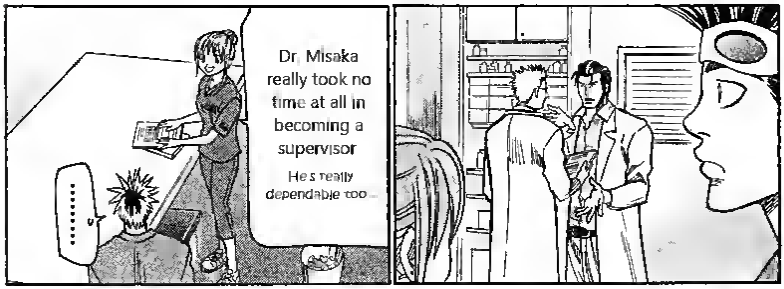
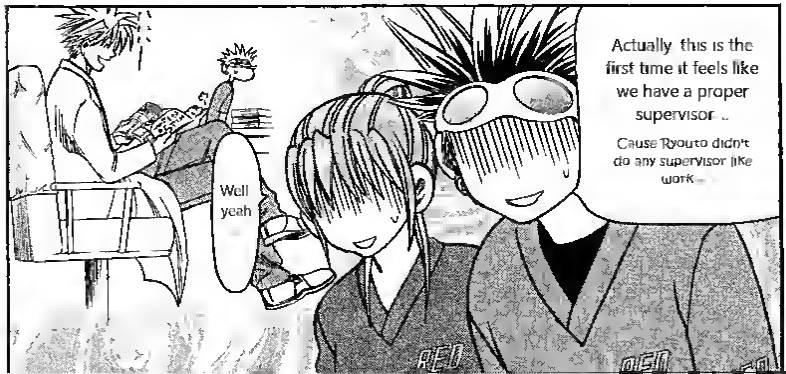
WILD LIFE

Kikiki! Could you see an emergency case?
Yes that's fine!
Dr. Misaka!
What is it, Kurachi
About the fox whose nephrectomy we did yesterday...



Dr. Misaka really took no time at all in becoming a supervisor
He's really dependable too...



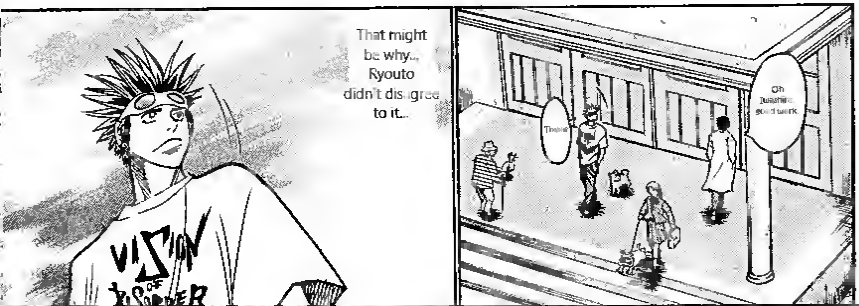
Actually this is the first time it feels like we have a proper supervisor...
Cause Ryouto didn't do any supervisor like work...
Well yeah

.....
So doesn't it feel like the second department won't have anything to worry about anymore?
But it's great! Soon we'll also have 8 doctors coming back

Senou!
?
If you're free could you help out a bit over here?
Ah yes!
What's wrong, Dr. Tesshou?
No...naw, it's nothing!

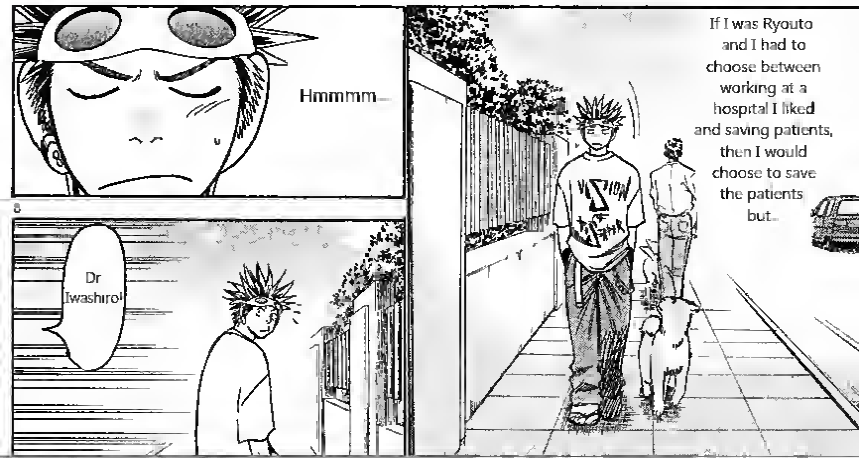
Aaahh. I'll be going ahead
Okay!
Iwashiro is off for the afternoon right? Good work today

It s true that RED has nothing to worry about.
RED
.....
But
VISION
"There are some rewarding things to do that are only possible at Meiou University..."
I wonder if that's what Ryouto meant when he was talking about "rewarding things"?
I m sure that right now the patients at Meiou are facing some terrible things



That might be why... Ryouto didn't disagree to it...
VISION
Thanks!
Oh Daisuke-san! I work

Having to leave R.E.D.!
R.E.D.
.....



Hmmmm...
If I was Ryouto and I had to choose between working at a hospital I liked and saving patients, then I would choose to save the patients but...
Dr Iwashiro!

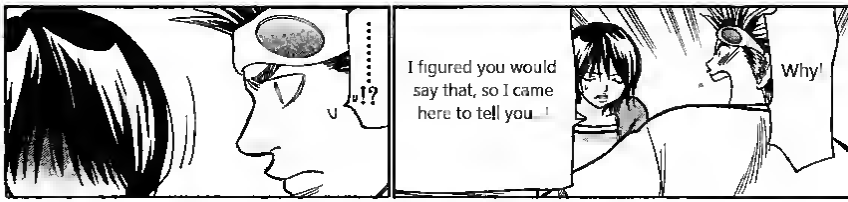
M... Mizuki-san!?
Are you busy right now?
Could we talk for a bit?
?
I just finished work so it's okay but what do you want to talk about?
Diner's Angel's
カラン
The truth is just now....

Eh?
I turned in my letter of resignation to Meiou University
Wha what did you say?

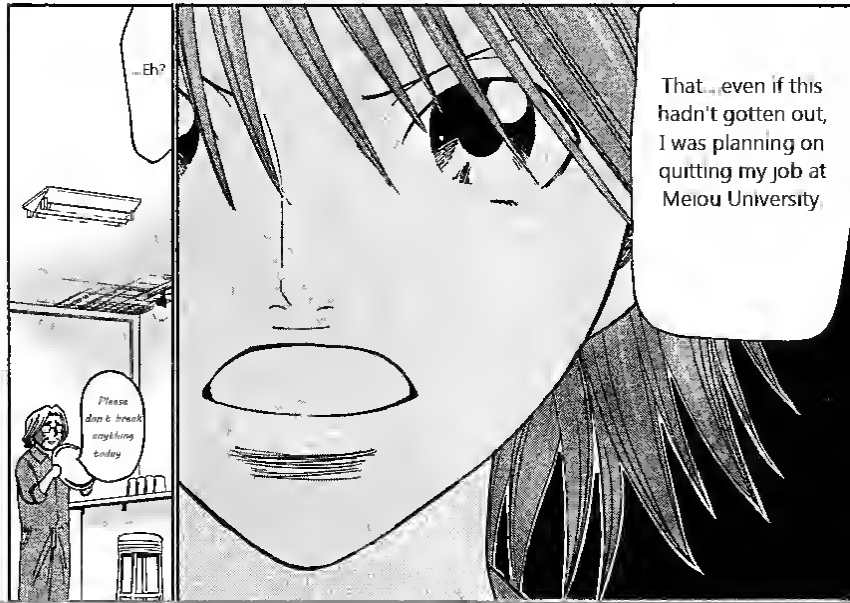
Ehhh?
Actually, everything got exposed to Mr. Heinami
The fact that we took in emergency patients against the rules...
I completely forgot about it but, I had left a message at Mr. Heinami's house saying
"Some Iwashiro guy is just examining patients on his own"....

But don't worry.
A student going home from university late also witnessed us accepting patients, so I couldn't really make any excuses...
I told them that I had stopped you
And that I examined the emergency patients myself.
...Eh?
11
Do... don't joke around!
So that's why you had to resign!?
It seemed like Mr. Heinami still suspected you, so if anyone asks, try to match up with my story.
"The emergency cases were all really simple... so even a resident such as myself could have examined them, which is why I only used up some disinfectant"

I'm going to go straight to Meiou right now!
Stop it!
I told you that I would take responsibility for everything!!

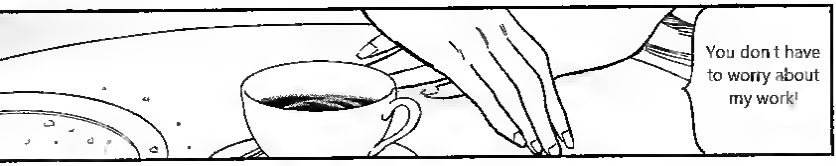


.....!?
I figured you would say that, so I came here to tell you...!
Why!

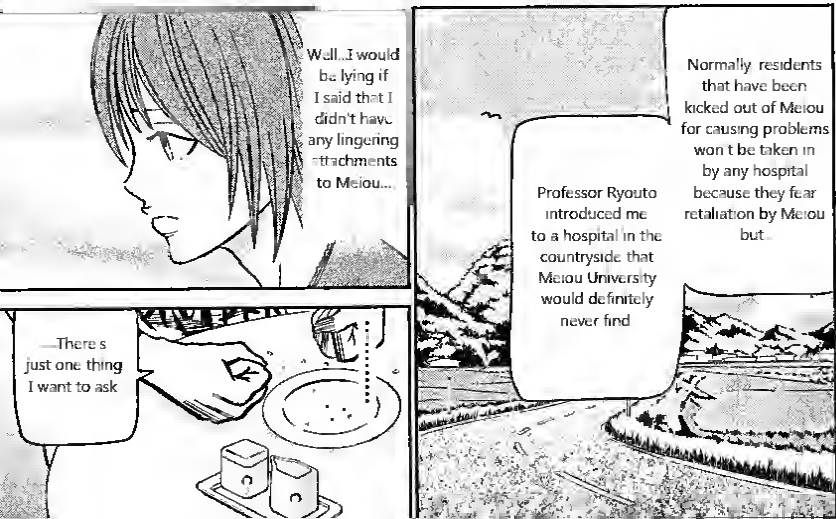


...Eh?
Please don't break anything today
That...even if this hadn't gotten out, I was planning on quitting my job at Meiou University

Because I don't want to have to turn away emergency patients, or watch hospitalized patients die anymore
In the first place, someone like me wasn't well suited for Meiou University...
And if I had told the truth, then the both of us would have been fired right?
As soon as I had helped you out, I would have been fired anyways
This way, everything could be settled with me quitting.



You don't have to worry about my work!

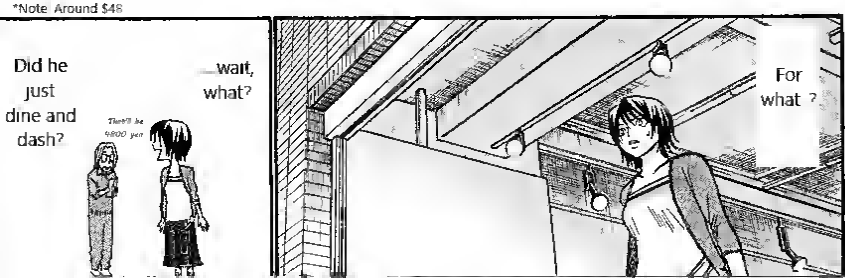


Normally residents that have been kicked out of Meiou for causing problems won't be taken in by any hospital because they fear retaliation by Meiou but...
Professor Ryouto introduced me to a hospital in the countryside that Meiou University would definitely never find
Well...I would be lying if I said that I didn't have any lingering attachments to Meiou...
...There's just one thing I want to ask

...Eh?
Mizuki-san, would you not want to quit anymore?
And wouldn't just let hospitalized patients die so easily anymore,
If Meiou would properly accept emergency patients at night,
That kind of dream-like situation would never happen...
Th..... that's... true but...

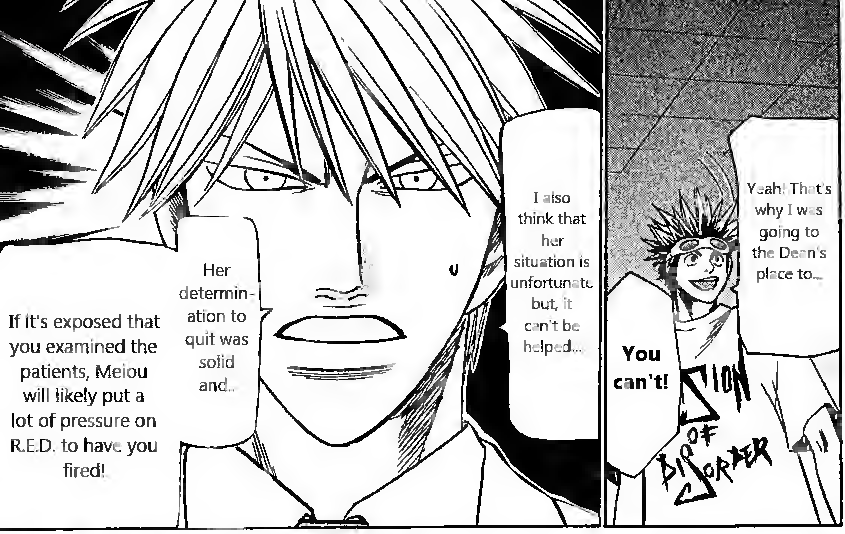
EHHH!?
I see then that makes things quick!
I'm gonna go see the Dean right now!
W...wait! Just what are you thinking of doing!?
.....
AAA

*Note: Around $48

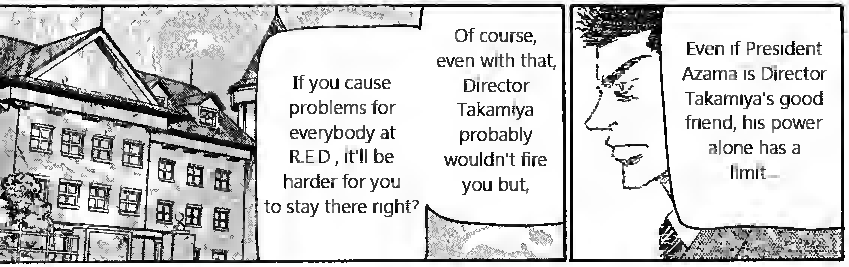


No! I just want to talk to the Dean about something!
What's going on? Do you need me for something?
!?
Tesshou-kun!
Oh Ryouto!
!

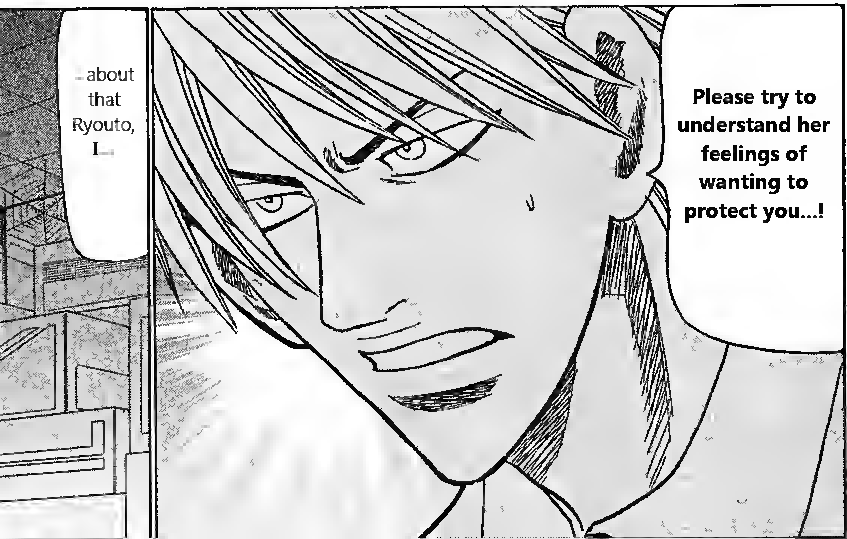
About Mizuki-san...
...Could it be... you heard about it?



If it's exposed that you examined the patients, Meiou will likely put a lot of pressure on R.E.D. to have you fired!
Her determination to quit was solid and...
I also think that her situation is unfortunate but, it can't be helped...
You can't!
Yeah! That's why I was going to the Dean's place to...

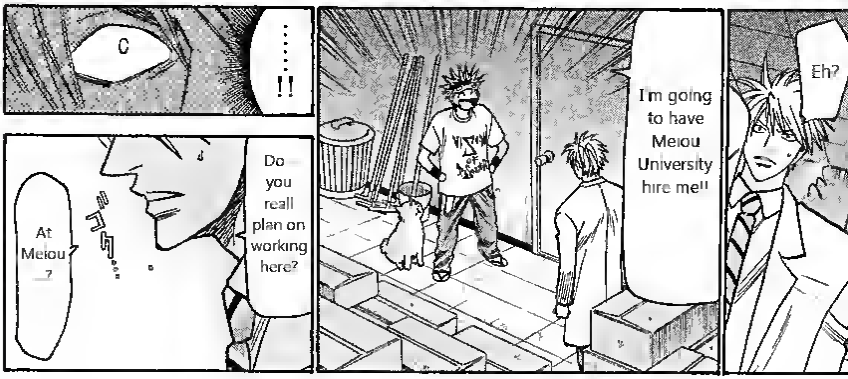


If you cause problems for everybody at R.E.D , it'll be harder for you to stay there right?
Of course, even with that, Director Takamiya probably wouldn't fire you but,
Even if President Azama is Director Takamiya's good friend, his power alone has a limit...



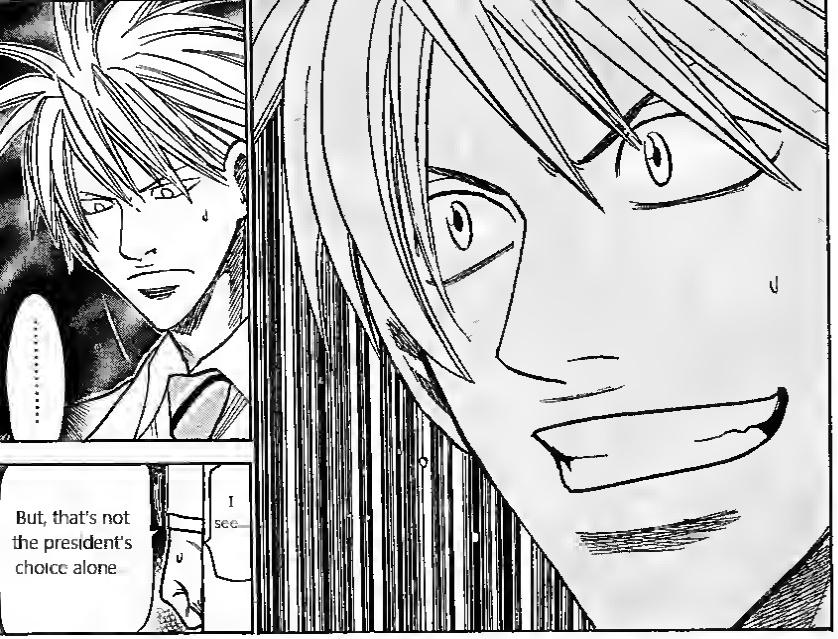
...about that Ryouto, I...
Please try to understand her feelings of wanting to protect you...!

Am planning on quitting R.E.D.!



C
……!!
Do you reall plan on working here?
At Meiou…?
ゴクリ…
I'm going to have Meiou University hire me!!
Eh?

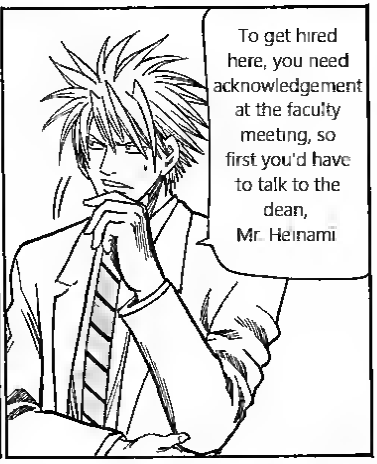
I wanna treat all the emergency patients and hospitalized patients here!!
Yeah!



.....
But, that's not the president's choice alone
I see...

N... no wait a moment!
Then I'm gonna go over to Heinami's place right now!
Where is he?

Try to uncover the fact that you looked at emergency patients
In order to get revenge for you hitting him Mr. Heinami will definitely
That's all the more reason to be careful



To get hired here, you need acknowledgement at the faculty meeting, so first you'd have to talk to the dean, Mr. Heinami

Even if he uncovers it, cause...
?
That's fine

!?
I'm gonna tell him everything!
ehhhh hhh!?
On top of telling him everything honestly, I'm gonna get him to hire me!!

I hope you enjoyed the chapter!!

Chapter 93: Heinami's suffering

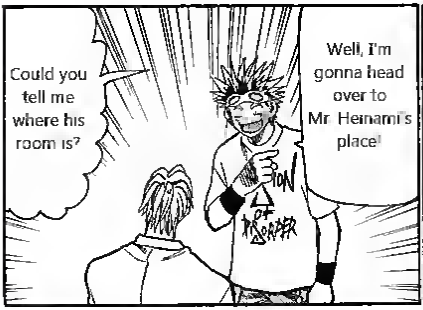
Why wouldn't he hire me if it's exposed?
え!?
If it's revealed to Mr. Heinami that you examined patients on your own, there's no way that you'd be hired!
What would it do for you to expose it yourself!?
Wh... what are you saying?

Why was it bad to have saved the emergency patient's life?

Chapter 93: Heinami's suffering

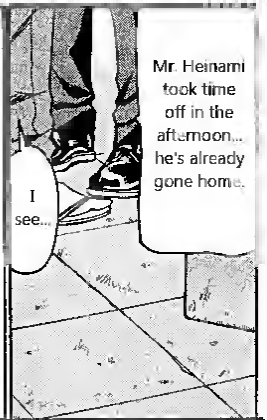
That way, Mizuki-san won't have to quit anymore right?

Because, I intend to have those rules themselves changed!



Could you tell me where his room is?
Well, I'm gonna head over to Mr. Heinami's place!

Then, I guess I'll go to his house!

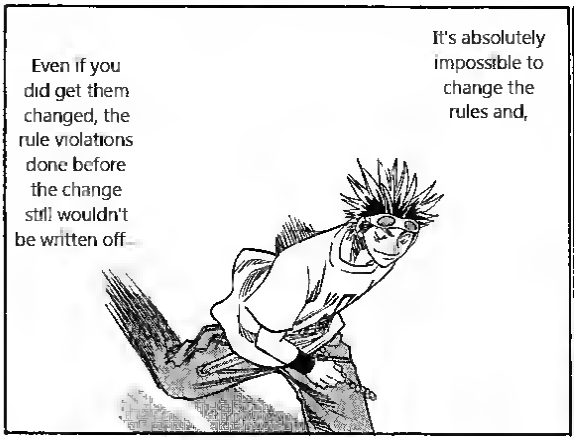


Mr. Heinami took time off in the afternoon... he's already gone home.
I see...

Wa wait a moment, Tesshou-kun
I'll go explain the situation to the reception desk and have them tell me the address!
See

.....
Eh?

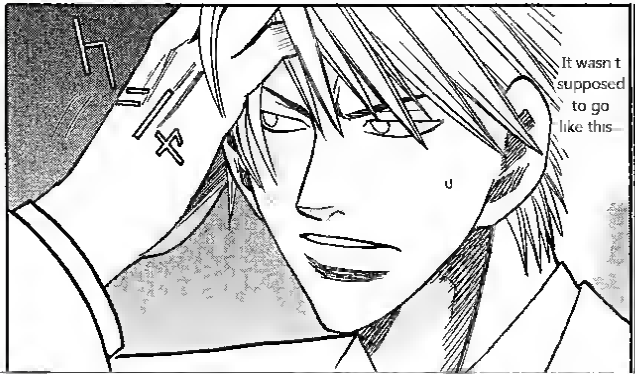
Tesh



Even if you did get them changed, the rule violations done before the change still wouldn't be written off
It's absolutely impossible to change the rules and,

That's way too reckless

4



It wasn't supposed to go like this

.....

But, what happened was completely—

I thought that would make him interested in coming to Meiou

By having Tesshou-kun stay there until late at night, I wanted him to see face-to-face what the patients at Meiou had to endure at night—

That day ...

Outside of my expectations .....

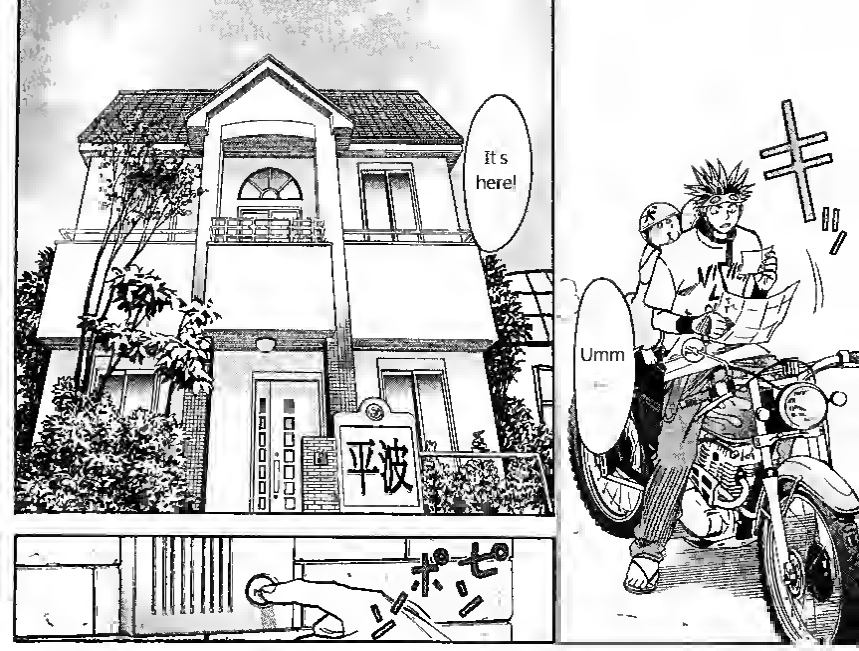
I guess I'll have to give up on Tesshou-kun coming to Meiou—

Nothing outside of a miracle could possibly make it so that Tesshou-kun can convince Mr. Hainami...



It's here!

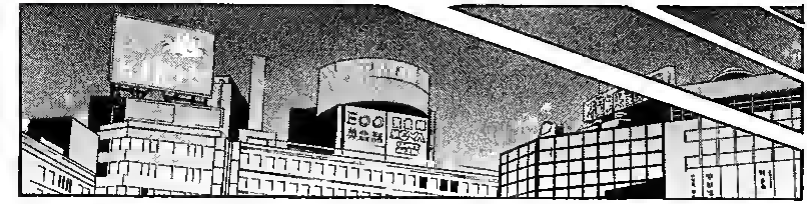
I'm his daughter Sasae Nice to meet ya!



In any case, please think about having Iwashiro come to Meiou University
Well as soon as the person in question decides to
Even though you took the afternoon off sorry for asking you to come with me.
Not at all I'm perfectly fine with taking the president's invitations anytime
Yes, of course President.

I will NEVER approve of it....!!

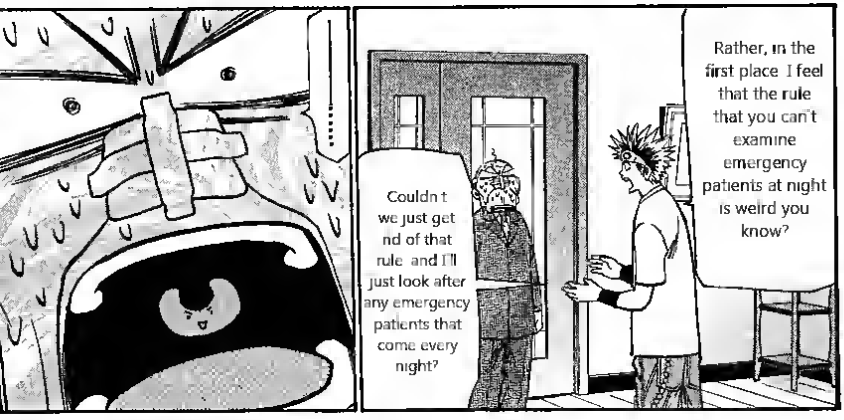
But truthfully, I have something I need to tell you!
...Hahh!?
.....



Couldn't we just get rid of that rule and I'll just look after any emergency patients that come every night?
Rather, in the first place I feel that the rule that you can't examine emergency patients at night is weird you know?

Really!? Dr Tesshou!
Even if I have to come every single day to ask!!
Anyhow, I have no plans of backing down until I have your OK!

Would you really come by every day?

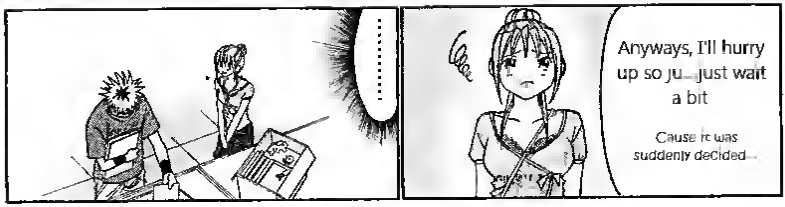
Chapter 94: The last night at R.E.D.

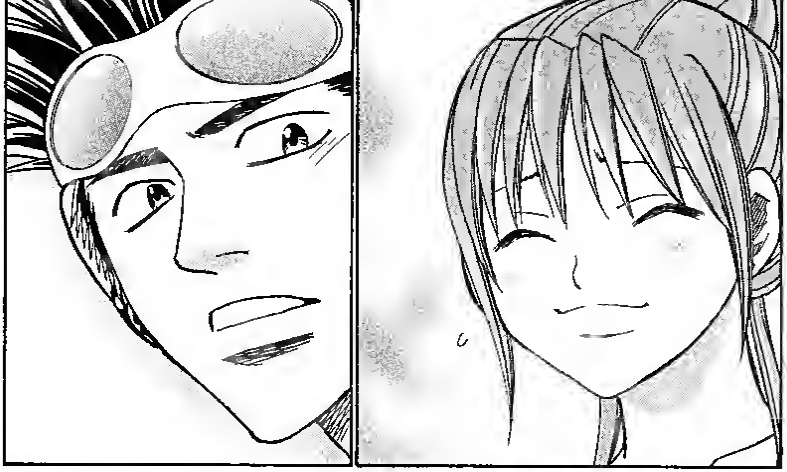
Chapter 94: The last night at R.E.D.

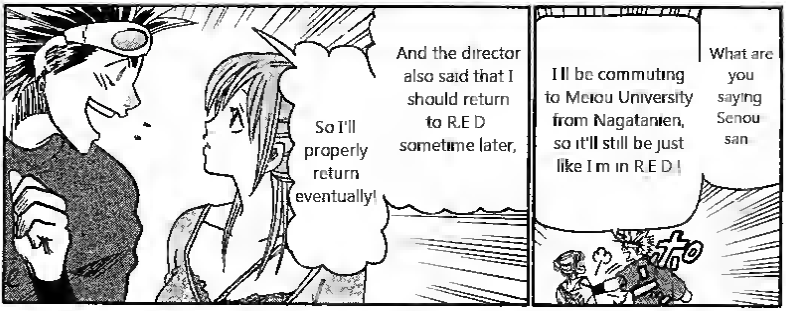
Even though this is Dr. Tesshou's farewell party, there's no point if we leave doctor behind!
What are you say-ing!
I can't seem to finish cleaning up...
Could you all head off first?
Tha... that's true!



Anyways, I'll hurry up so ju...just wait a bit
Cause it was suddenly decided...

To think that from tomorrow on Dr Tesshou won t be here!
It kinda seems like a lie!
But... I really can't believe it...!



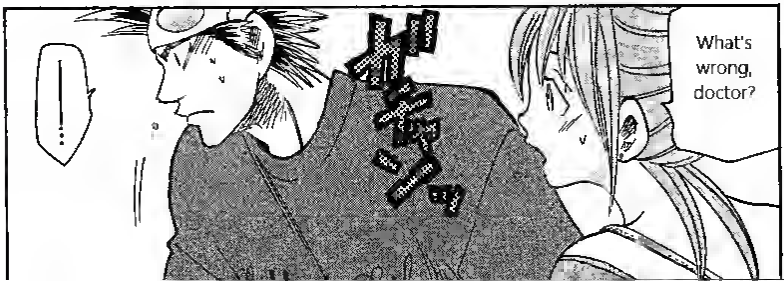


What are you saying Senou san
I'll be commuting to Meiou University from Nagatanien, so it'll still be just like I'm in R.E.D.!
And the director also said that I should return to R.E.D sometime later,
So I'll properly return eventually!

.....
I suppose so...
Cold

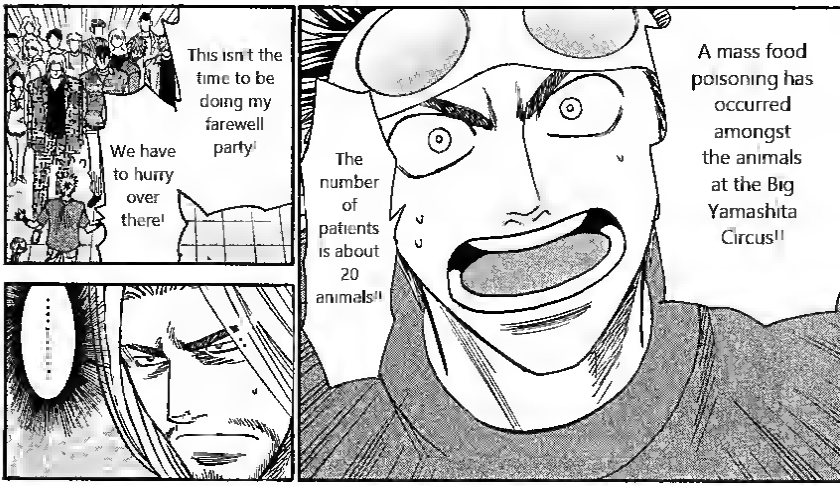
Even though everyone in Wild Life is so busy, in order to have my farewell party, they had to forcefully make time for it
Isn't it a big nuisance?
B...but I kinda feel bad
Eh?
What are you saying, Nobody is thinking that at
Hm?

Yes, R.E.D.'s second department, Wild...
Hm?
U...understood! We'll be there soon, so calm down!!
The location is.
?



What's wrong, doctor?
!

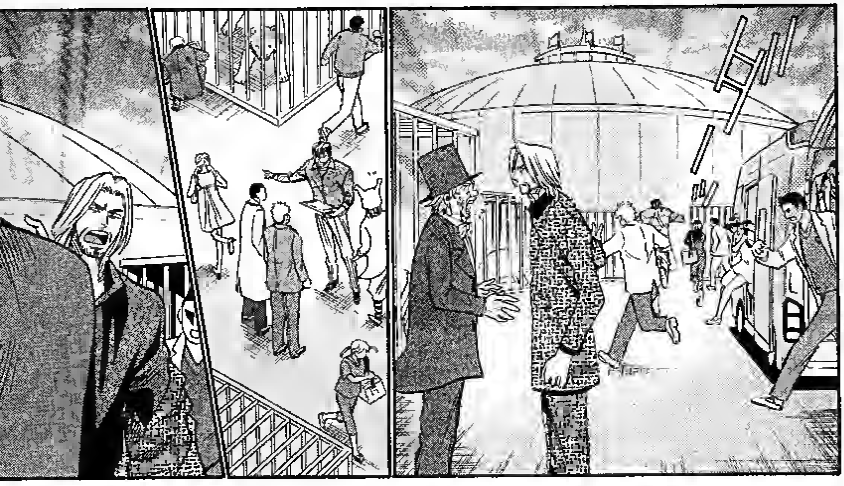
Alright everyone's here. let s go!
Now's not the time for that!

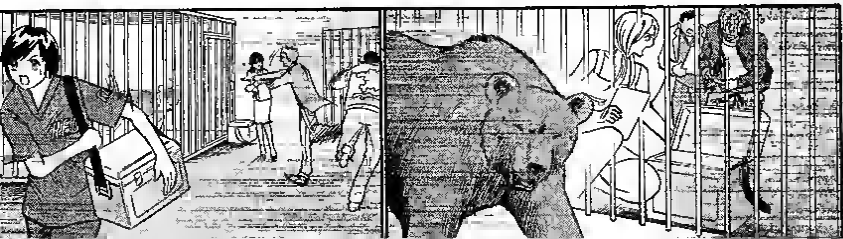


This isn't the time to be doing my farewell party!
We have to hurry over there!
A mass food poisoning has occurred amongst the animals at the Big Yamashita Circus!!
The number of patients is about 20 animals!!
.....

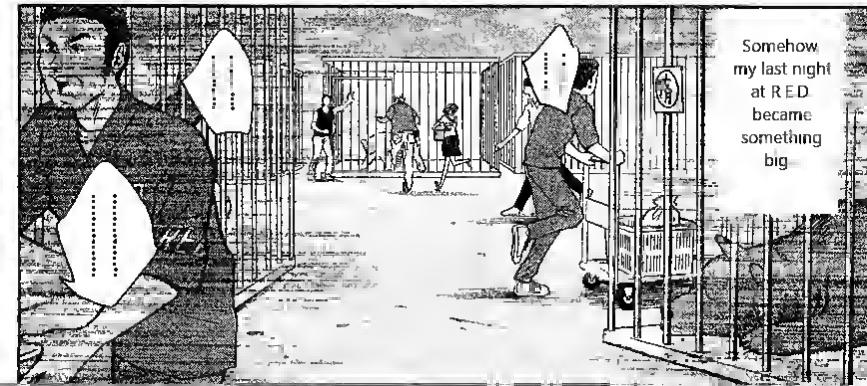
Everyone prepare for a house call!
Yes!

No way...
Of all the times for this to happen...



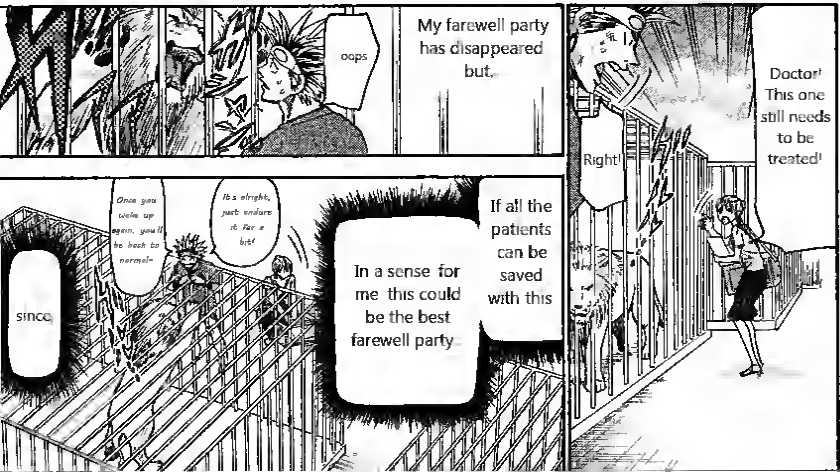


T/N: It's hard to read what they're trying to say here, but basically they all are asking for some medicines.



But...
Alright, you're okay now!

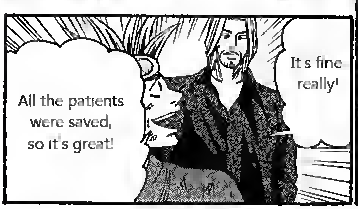
There really are only amazing guys at Wild Life...



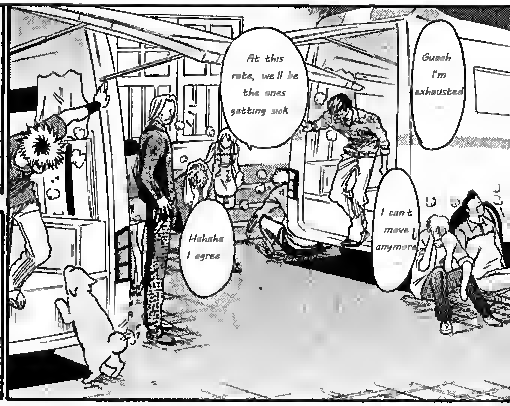
oops
My farewell party has disappeared but...
Doctor! This one still needs to be treated!
Right!
If all the patients can be saved with this
In a sense for me this could be the best farewell party...
Once you wake up again, you'll be back to normal~
It's alright, just endure it for a bit!
since

At the very end, I was able to see how amazing everyone was again...!

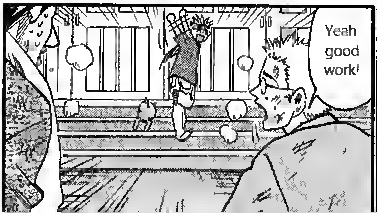
To make you work so hard at the very end...
Sorry about that, Iwashiro



All the patients were saved, so it's great!
It's fine really!



At this rate, we'll be the ones getting sick
Gaaah I'm exhausted
Hahaha I agree
I can't move anymore



Yeah good work!

Good work everyone!
Well I still haven't finished cleaning up my desk so...I'll be going first!

Alright! With this, I'm finished!!

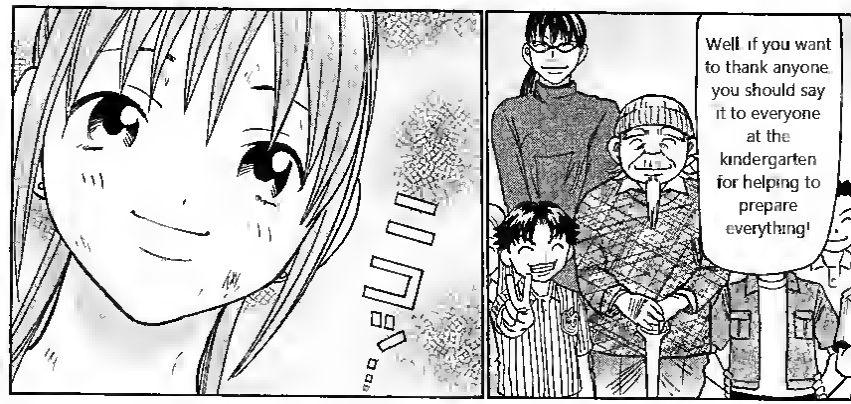
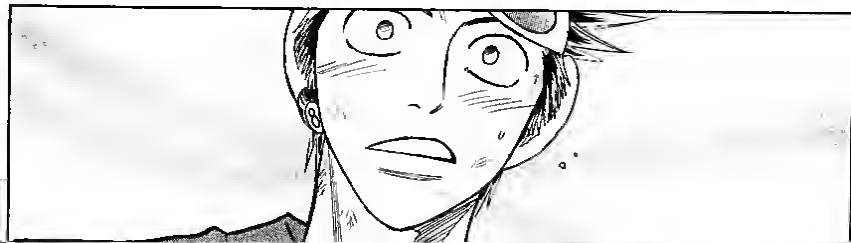
Banner: Good work Tesshou! Good luck at Meiou University!!
おつかれさまでしょう
めいおうでもがんばれ!!
Great work! Tesshou!!
Eh!?
Good work, Dr. Tesshou!
We made a great feast!!
Look, a special-sized rice ball ♡
Geez, you took so long, Tesshou! I was getting sick of waiting!

When did I ever say that the farewell party was cancelled?
Wh why ...?
Right before we went to the site, we called the owner to ask him
If we held it here we wouldn t have to worry about the time and could start the party at any time



Well, if you want to thank anyone, you should say it to everyone at the kindergarten for helping to prepare everything!



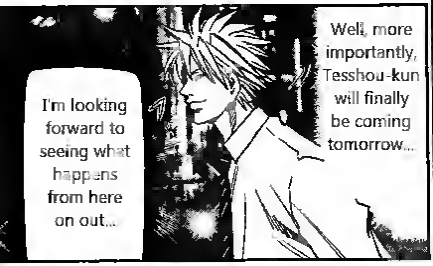
Here.
Even though everyone should be really tired...
Good work Dr. Iwashiro!!
I wonder why
'Kay
Alright! Then let's prepare for a toast!

...But even if you say that, knowing him, he'll try too hard anyhow.
If Meiou gets too hard, just come on back to R.E.D. anytime.
Dr. Tesshou, don't cry anymore! Even if you go to Meiou, don't overdo it okay?
...but
I'm not a kid anymore!! You don't need to tell me not to cry or say that if it gets too hard...just come back and stuff—
Oh
You know, guys!

I'm seriously thankful...

I'm gonna get much bigger, and then return!!
Everyone...

But even if I went, I feel like I'd be pulled into helping out to work.
We'll hold a third welcome party for you later 'kay ♡



I'm looking forward to seeing what happens from here on out...
Well, more importantly, Tesshou-kun will finally be coming tomorrow...

Ahh bye bye
See you~ Professor Ryouto~
On the other hand, at that time...
Sorry for not going to your farewell party, Tesshou-kun...

President Azama ...?
Hm ...?

...Ehh!?
It couldn't be...

I....lost them....
19
B...but, there's no mistake... just now, the one President Azama was with was...
Gento Shiryou!

No way...
President Azama is Director Takamiya's good friend, and he's a man that's aiming to reform Meiou right!?

So just why was he with Shiryou!?
.....
Just what...
Could it be that President Azama has "something" that both Director Takamiya nor I know about ?

What in the world....
Will happen from now on!?

I hope you enjoyed the chapter!!

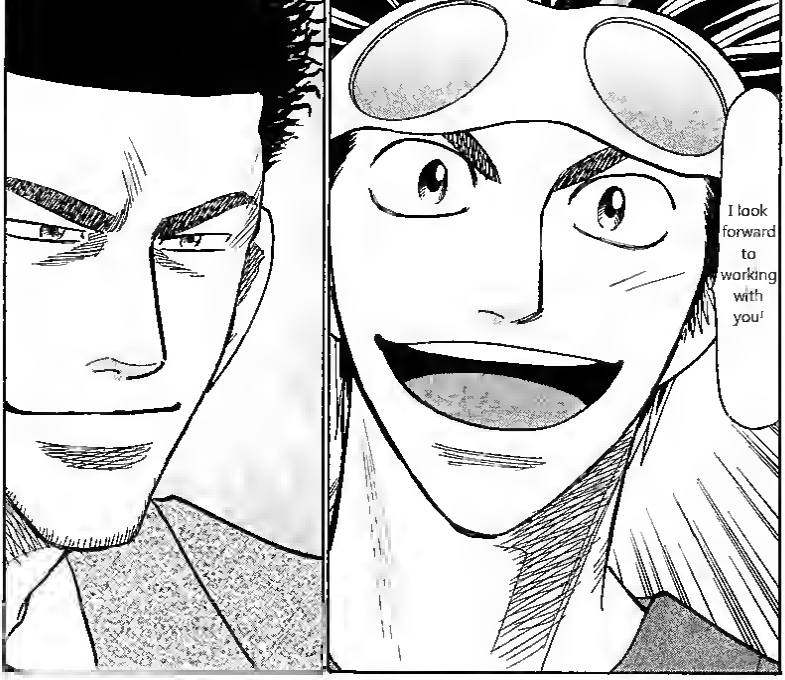
Chapter 95:
Dog's crisis
At Meiou University
Hey Mizuki, did you hear?
1
Yeah... I also heard...
That doctor that's going to be in charge of the night examinations is coming today
It'd be great if he's a cool guy~
Dr. Iwashiro
He's really coming ...!!

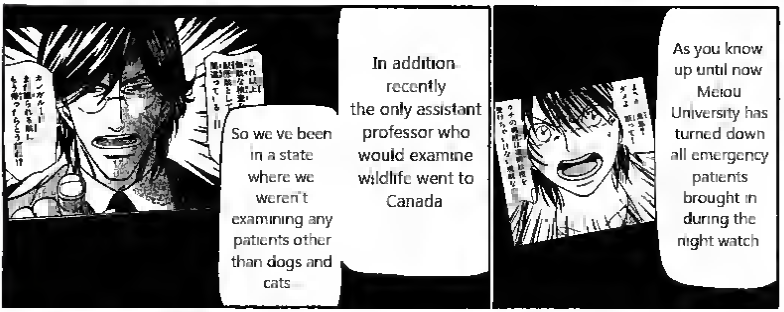
Chapter 95: Dog's crisis

So, what's up with the president's hair? Is it natural?
It's a mystery isn't it—
Hey~ Director~

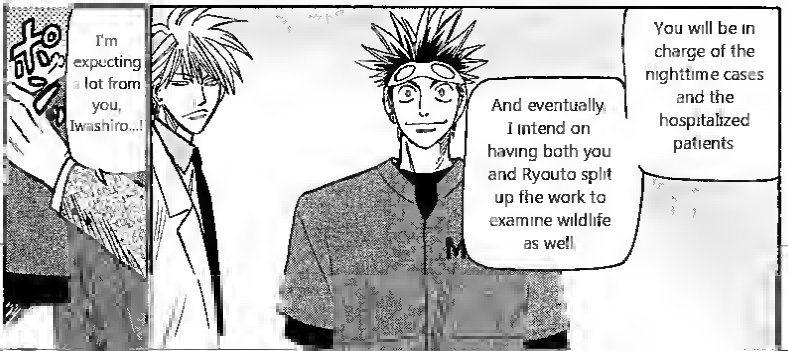
Excuse me!
MEIDO
Iwashiro-kun
No, from today on I guess I should be calling you Iwashiro
Welcome!
To Meiou University!



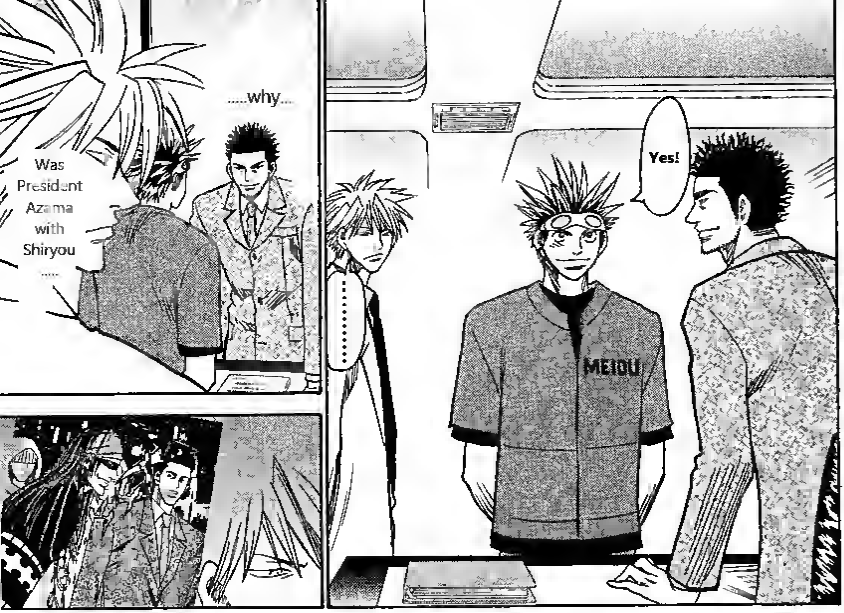
I look forward to working with you!



So we've been in a state where we weren't examining any patients other than dogs and cats...
In addition recently the only assistant professor who would examine wildlife went to Canada
As you know up until now Meiou University has turned down all emergency patients brought in during the night watch



I'm expecting a lot from you, Iwashiro...!
And eventually I intend on having both you and Ryouto split up the work to examine wildlife as well
You will be in charge of the nighttime cases and the hospitalized patients

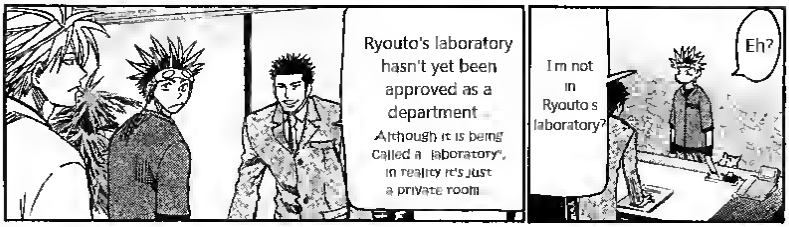


Was President Azama with Shiryou .....
.....why....
Yes!
MEIOU

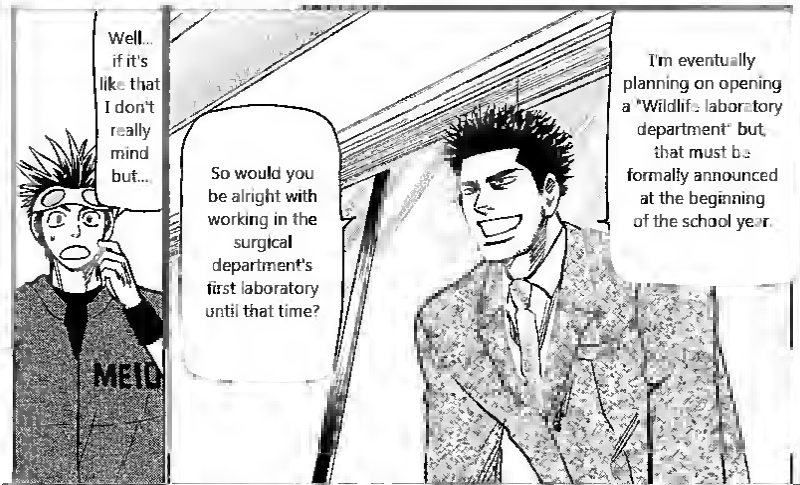
But even if I grilled the President about it, I find it hard to think that he'd tell me the truth...
There could be a hidden side to it...
If President Azama has another face, then in addition to his original reason for bringing Tasshou-kun and I to Meiou,

I'm not sure whether or not to tell Tasshou-kun about this but....
If he heard about this, then I have no idea what he would do....
For now, I have no choice but to investigate it myself...

As for your assigned department
What do you think of being in the surgical department's first laboratory, where Mr Heinami is the head professor?



Ryouto's laboratory hasn't yet been approved as a department
Although it is being called a "laboratory", in reality it's just a private room
I'm not in Ryouto's laboratory?
Eh?



Well... if it's like that I don't really mind but...
So would you be alright with working in the surgical department's first laboratory until that time?
I'm eventually planning on opening a "Wildlife laboratory department" but, that must be formally announced at the beginning of the school year.
MEID

?
Hmm? Unlike everyone else...?
MEIDU
In the first place, unlike everyone else, you can work as a physician alone
However, in truth we can't really have you doing the night watch, internal medicine, and surgery all at once, so you're not strictly in surgery

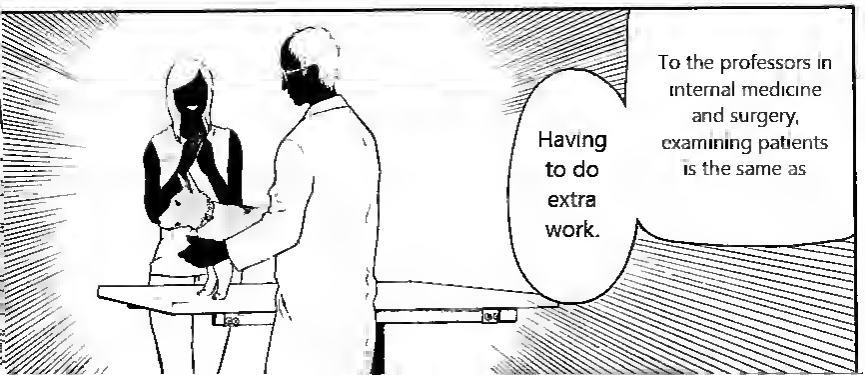
Understood
Ryouto show Iwashiro to the surgical department's first laboratory please
?
Wau! Wauwau wau!!

Wauwau wau!!

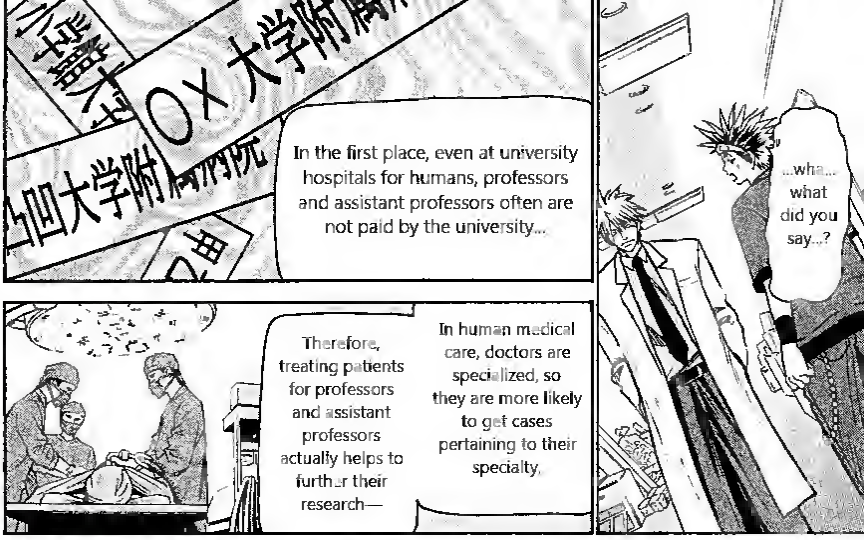
You know, Ryouto there's something that I want to know but...
I thought this when I first came but,
Why is Meiou so dirty...?
Ou...
Do they not clean at all?
Well, that's natural...
.....

Do you really think that those guys who thought that treating emergency cases and hospitalized patients was a pain, would work hard in cleaning and keeping things tidy?
.....
Truthfully to me those guys are pretty strange
Why does everyone here have no motivation?
There is a reason...
.....

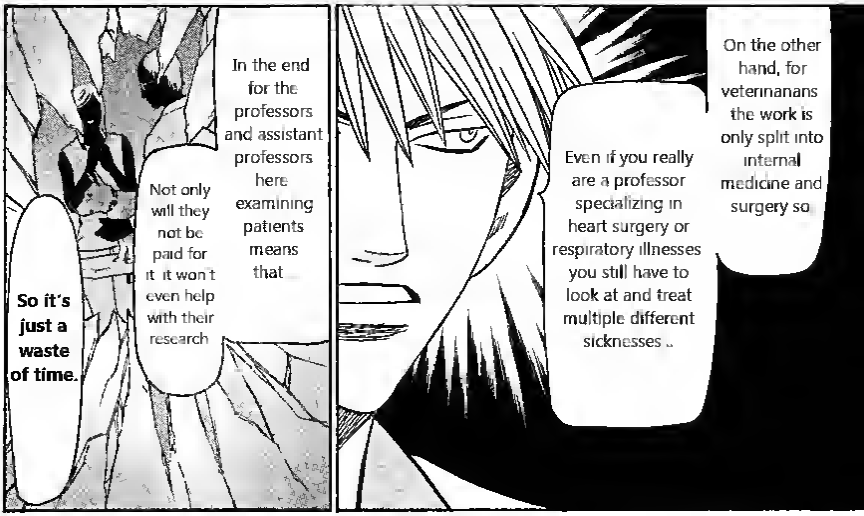
....eh?
.....
It's because in this hospital, none of the veterinarians are receiving a salary.
The university and the university hospital are separate organizations....!
You couldn't possibly make a livelihood like that!
Wh... what's that!? There's no way!
.....
But the teaching staff's salary is the same amount even if you don't look at emergency cases, or don't do anything about the hygiene.
In addition, professors and assistant professors are receiving a salary from the university's side as teaching staff....



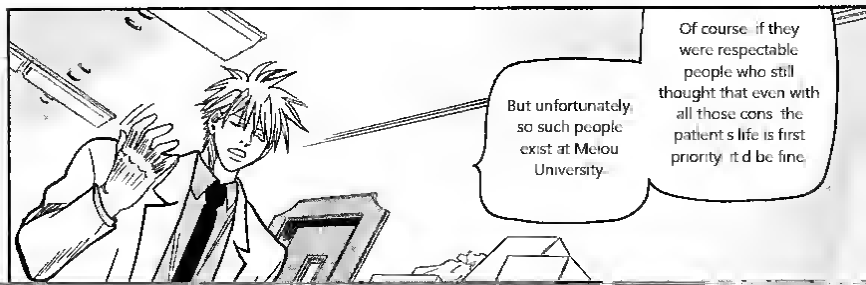
To the professors in internal medicine and surgery, examining patients is the same as
Having to do extra work.



In the first place, even at university hospitals for humans, professors and assistant professors often are not paid by the university...
...wha... what did you say...?
Therefore, treating patients for professors and assistant professors actually helps to further their research—
In human medical care, doctors are specialized, so they are more likely to get cases pertaining to their specialty.



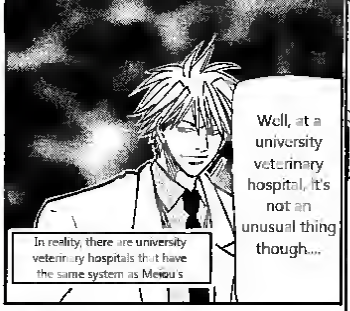
So it's just a waste of time.
Not only will they not be paid for it it won't even help with their research
In the end for the professors and assistant professors here examining patients means that...
Even if you really are a professor specializing in heart surgery or respiratory illnesses you still have to look at and treat multiple different sicknesses ..
On the other hand, for veterinanans the work is only split into internal medicine and surgery so



But unfortunately so such people exist at Meiou University.
Of course if they were respectable people who still thought that even with all those cons the patient s life is first priority it d be fine.

That s why they'll take a look at the illness for the time being. but won t actually take care of the troubles
.....
'Rather than doing such pointless work, since they're just animals, it doesn't really matter if they die."
All the professors at Meiou think like that
MEIOU
B...but then... what happens to all the physician work and the residents?
Physician work and residents have nothing to do with research, and the pay is also...

Meiou University doesn't have any physicians
All they have are the teaching staff from the un ver sity and residents
And, the residents are also not getting paid by the hospital as well.
On the contrary, it's the residents that have to pay 300,000 yen* to the hospital for their residency.
Ehhh!?



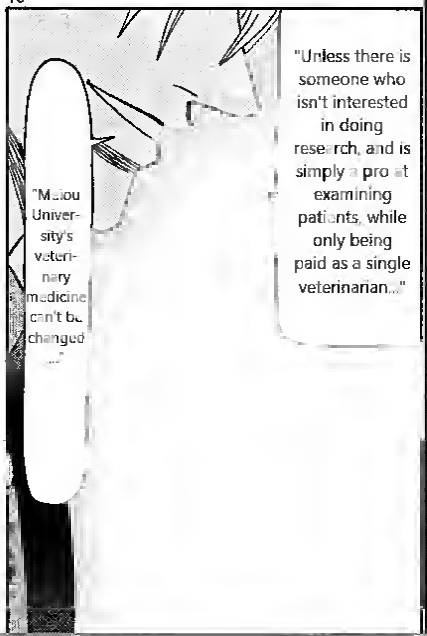
Well, at a university veterinary hospital, it's not an unusual thing though....
In reality, there are university veterinary hospitals that have the same system as Meiou's

But you know, Tesshou-kun.

At Meiou University's hospital, residents are treated the same as students.
In actuality, without the directions of their supervisors, they can't do anything and
The residents themselves haven't gotten rid of their student mindset...

In the first place, unlike everyone else you can work as a physician alone...
!!

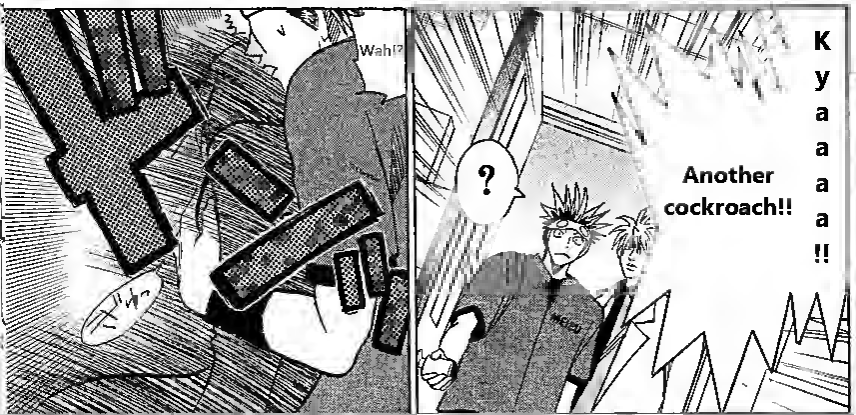
13



"Meiou University's veterinary medicine can't be changed..."
"Unless there is someone who isn't interested in doing research, and is simply a pro at examining patients, while only being paid as a single veterinarian..."

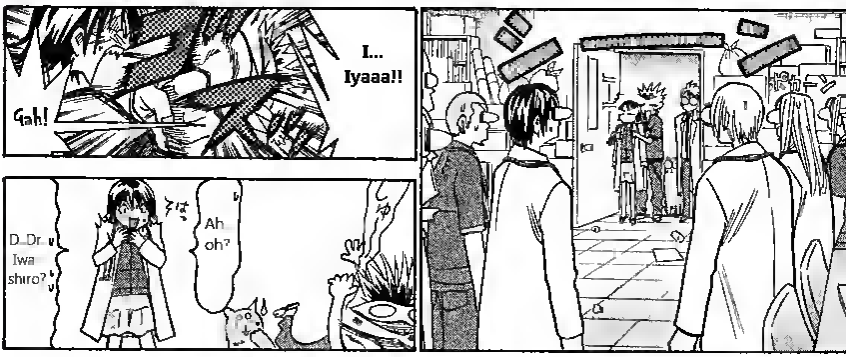
That's exactly why President Azama made you Meiou University's first physician
MEIOU

.....
Although I still don't know if that was his only aim though
I'm sure, that's what he was thinking.
Well then this is the surgical depart ment s first laboratory
scuse me
Somehow... I've come to a crazier place than I originally thought...



Wah!?
?
Another cockroach!!
K y a a a a !!

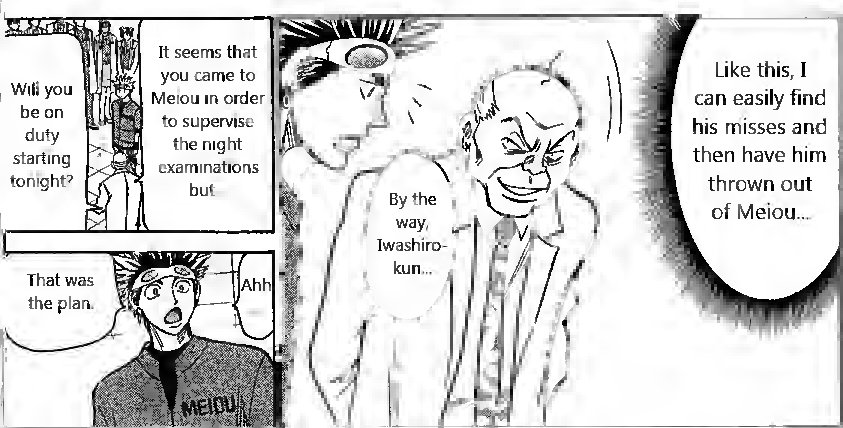
Ah...
Ahn ♡



Gah!
I... Iyaaa!!
D...Dr Iwashiro?
Ah oh?

Now then from here on
Haha...Meiou really is covered in cockroaches isn't it...

Allow me to introduce him. Starting today, he will be a member of the surgical department's first laboratory, this is Iwashiro-kun.
Ah nice to meet you I'm Iwashiro
To think that he would come to my laboratory...
Kukuku... luck must be with me...



Will you be on duty starting tonight?
It seems that you came to Meiou in order to supervise the night examinations but...
That was the plan.
Ahh
By the way, Iwashiro-kun...
Like this, I can easily find his misses and then have him thrown out of Meiou...

Ohh! Thanks!

Then Iwashiro-kun, unfortunately, I've got work, so I'll be going now.

You too, Mr. Heinami...

Ah, yes

I see, then, while we have the chance to, it would be good to go get an idea of the condition of the hospitalized patients.

Mizuki-kun, show him around.

Hm?

Iwashiro-kun, is this dog yours?

Now that I think of it he came to my house as well...

Ahh yeah

パタパタ

パタパタ

17

To be bringing your dog to your workplace...

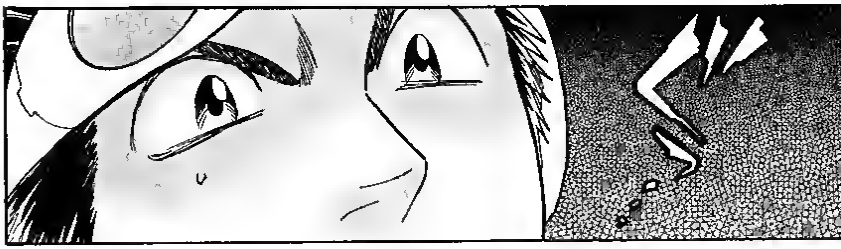
What are you thinking?

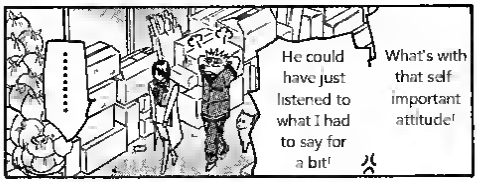
sweat
.....!

Houu.. I see..
But in the veterinary world's highest authority Melou University, he is not needed!!
Starting tomorrow don't bring him!!
At R.E.D. he was pretty useful!
Ah...ahh, he's a nurse dog!

Once you became a member of this laboratory, you were my subordinate!!
B but, he's actually my partner and...
MEIDO

I will not allow any back talk.



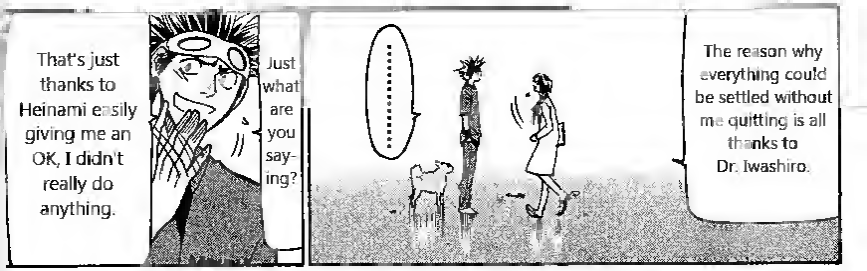


.....
He could have just listened to what I had to say for a bit!
What's with that self important attitude!

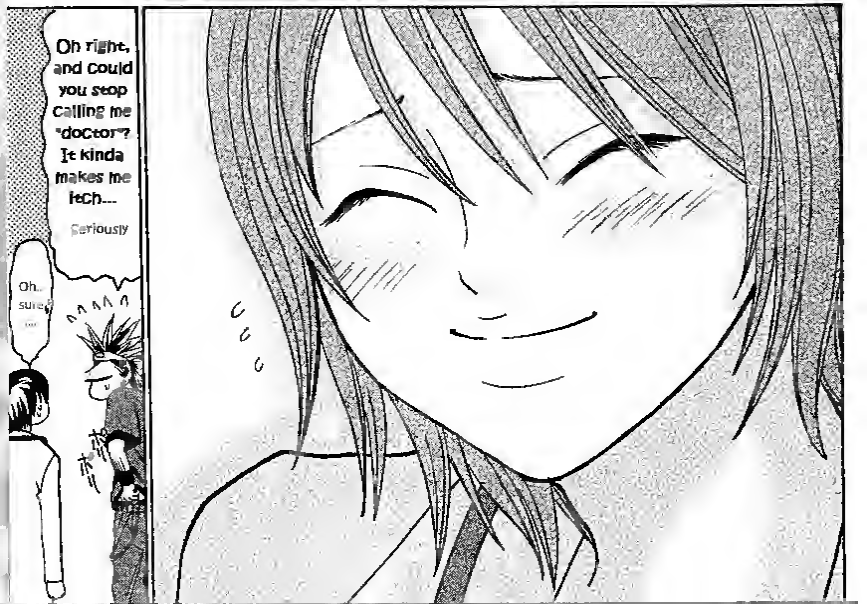
Dammit !!

In Meiou University the professor's words are absolute—
But, I don't think it can be helped...

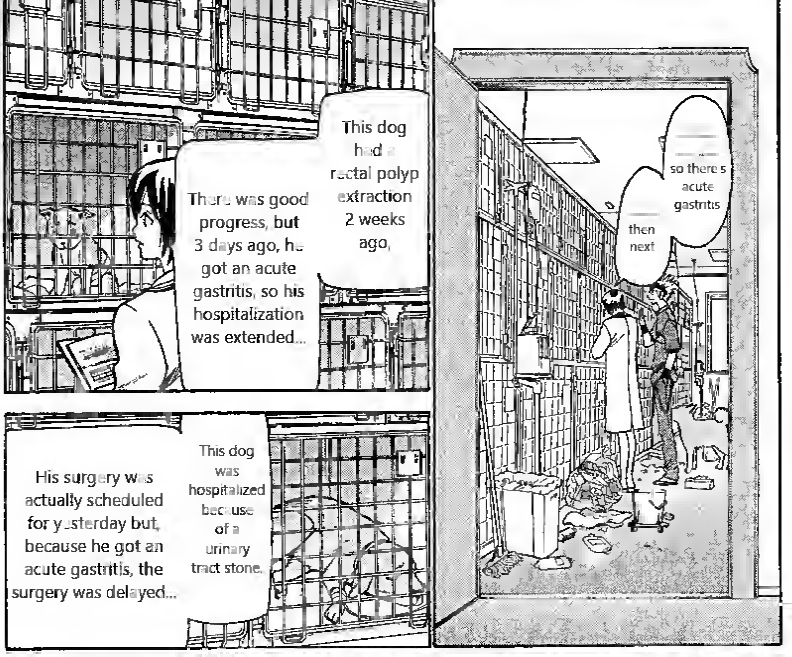
But you know...
MEIOU
By the way I'm thankful to you...
?



That's just thanks to Heinami easily giving me an OK, I didn't really do anything.
Just what are you saying?
The reason why everything could be settled without me quitting is all thanks to Dr. Iwashiro.



Oh right, and could you stop calling me "doctor"? It kinda makes me feel...
Seriously
Oh... sure...

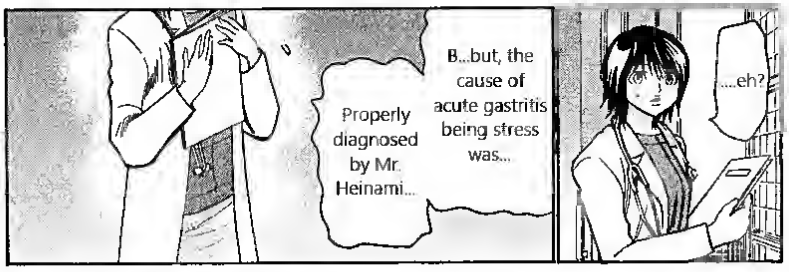


This dog had a rectal polyp extraction 2 weeks ago,
There was good progress, but 3 days ago, he got an acute gastritis, so his hospitalization was extended...
so there's acute gastritis
then next
This dog was hospitalized because of a urinary tract stone.
His surgery was actually scheduled for yesterday but, because he got an acute gastritis, the surgery was delayed...

.....?

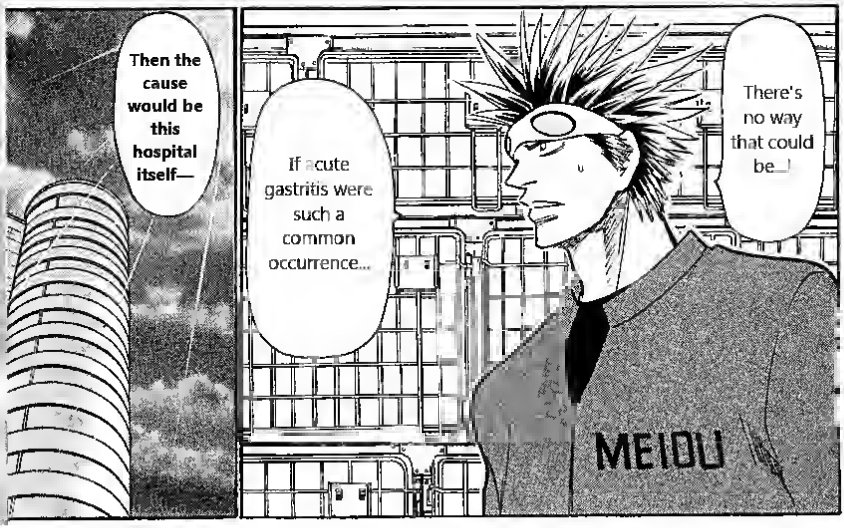
From what I just heard, within the currently hospitalized patients, it seems like there are a lot of them that got acute gastritis?
MEIOU
Errrr, can I ask one thing?
That's everything for all the patients being kept in this room.
Then, let's go to the next...

B...but, in R.E.D. I never heard of so many cases of patients getting acute gastritis all at the same time?
?
It should be pretty obvious. When the patients are being hospitalized, stress accumulates, resulting in acute gastritis, so it can't really be avoided right?



Properly diagnosed by Mr. Heinami...
B...but, the cause of acute gastritis being stress was...
....eh?

22



Then the cause would be this hospital itself—
If acute gastritis were such a common occurrence...
There's no way that could be...!
MEIOU

This hospital... it has an outbreak of hospital-acquired infection!!

……!!

I hope you enjoyed the chapter!!

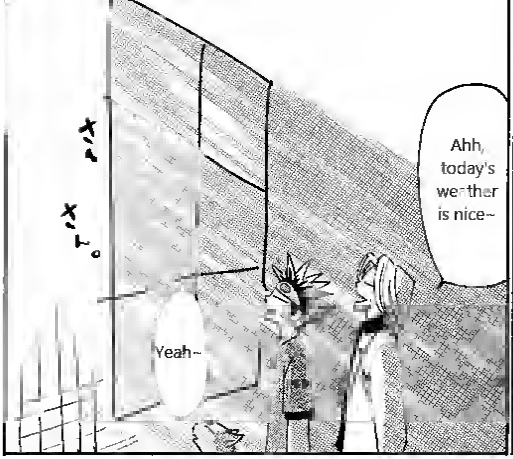
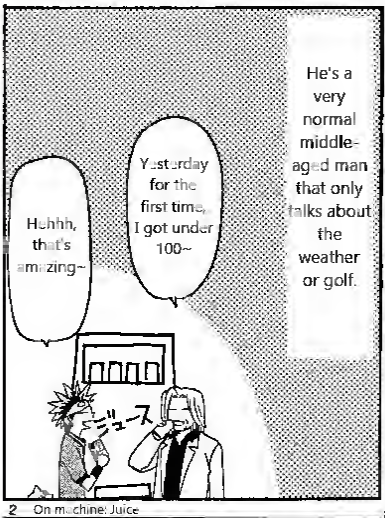
*T/N: This is a play on the name "Tesshou Iwashiro"

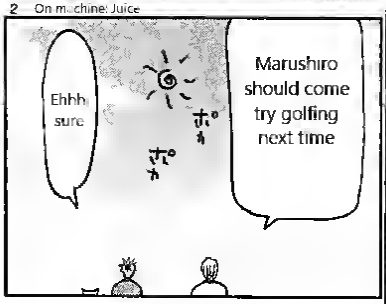


Ahh, today's weather is nice~
Yeah~

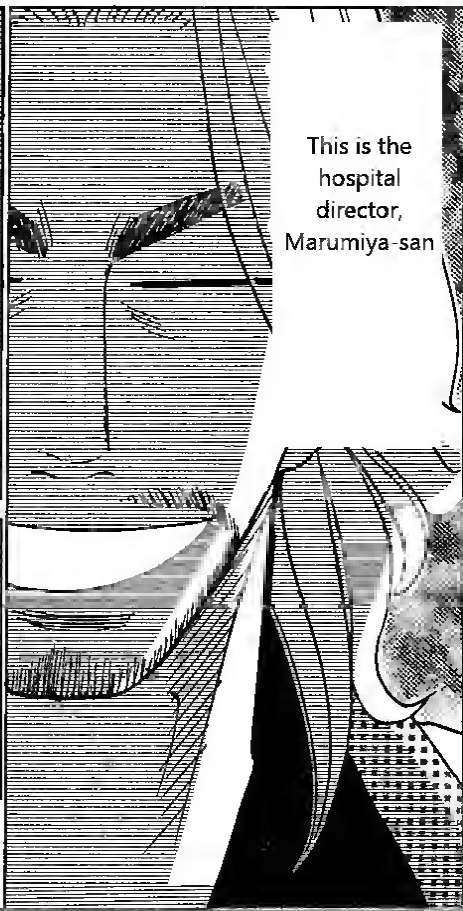
Hey Maro-shiro!
Good mornin'



He's a very normal middle-aged man that only talks about the weather or golf.
Yesterday for the first time, I got under 100~
Hohhh, that's amazing~
ジュース



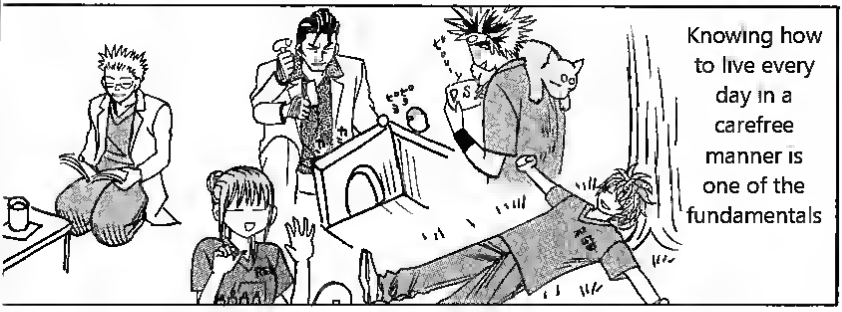
Marushiro should come try golfing next time
Ehhh, sure
ポヤ
ポヤ



This is the hospital director, Marumiya-san

In this hospital, Mild Life, there are no patients at all

SFX: Empty...



Knowing how to live every day in a carefree manner is one of the fundamentals

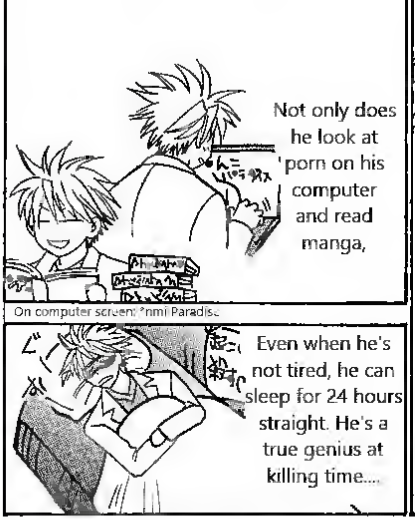
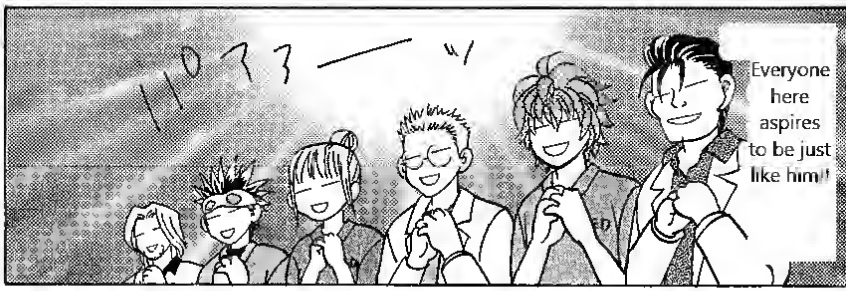
At those times, everyone follows that man's example...
Games
Snacks
I'm sick of them
Manga
Although, sometimes things are hard because we get too bored



Not only does he look at porn on his computer and read manga,
On computer screen: Anmi Paradise
Even when he's not tired, he can sleep for 24 hours straight. He's a true genius at killing time....
The supervisor, Dr. Tsukasa Ryouto



Everyone here aspires to be just like him!!

That kind of hospital doesn't exist.
I'd like to switch jobs over to a hospital like that you know?
